

Computer 6th Class Urdu Medium Online Test

Sr	Questions	Answers Choice
1	What type of health issue can occur in the wrist after using a computer for a long time.	A. Eye -Strain B. Back and neck pain C. Fatigue D. Repetitive strain injury
2	What is the main difference between social entrepreneurship and scalable startup entrepreneurship	A. The focus of the business B. The size of the business C. The kind of employees hired D. The goal of the business
3	What is the latest release date of Mac.	A. March 2022 B. July 2022 C. August 2022 D. September 2022
4	We can change the size of the marker using the tool.	A. Eraser B. Marker C. Crayon D. Canvas
5	The type of software is responsible for managing a computer's hardware and running other programs.	A. System software B. Application software C. Driver software D. Network software
6	What is the function of USB Flash Memory.	A. To store data for a limited time B. To store data Temporarily C. To store data permanently D. To store data only when computer is turned off
7	What is an example of application software.	A. Windows OS B. Office Suite C. Printer D. Game Controller
8	E-business generally has less or..... no costs.	A. Hidden B. Fixed C. Overhead D. Variable
9	What is it important for citizens to be compassionate.	A. To harm others B. To show disregard for others C. To spread negativity D. To promote empathy and understanding
10	OCR stand for	A. Optical correct Reading B. Optical Character Reader C. Optimal Copy Reading D. Optical Character Reading
11	What kind of software is used to enhance learning skills.	A. Entertainment software B. Productivity software C. Education and reference software D. Security software
12	In light pen the sensing element is called.	A. Light cell B. Cell C. Photocell D. None
13	Which of the following is NOT an example of utility software.	A. Antivirus B. Online shopping website C. File management tool D. Disk cleanup tool
14	ICT is an umbrella term that includes.	A. Television B. Cell phones C. Communication devices D. All
15	What is the goal of defining a problem.	A. To make it more complex B. To add ambiguity C. To make it more simple and clear D. To make it more difficult

		D. To make it impossible to solve
16	What was the the first device used for calculations.	A. Abacus B. Mechanical computer C. Integrated circuit D. Microprocessor
17	What type of device is a microphone in a computer system.	A. Output device B. Input device C. Memor device D. Control device
18	What is the significance of programming skills for students.	A. To become digital consumers B. To maximize technology investments C. To troubleshoot automation tools D. None of the above
19	What are teh two most common types of printers.	A. Inkjet and CRT B. Laser and CRT C. Inkjet and Laser D. CRT and Plotter
20	What type of tasks can disk management tools perform.	A. File management operations B. Disk cleanup and organization tasks C. Back up and restore operations D. Compressing and decompressing files
21	What replaced vacuum tubes in second generation computers.	A. RAM B. Integratd circuits C. Transistors D. Microprocessors
22	The purpose of decomposition in algorithmic thinking is to	A. Solve a specific problem B. Design new and improved systems C. Break down complicated problems into smaller problems D. Identify the sequence of operations
23	What is displayed in the webpage section of a web browser.	A. The menu buttons B. The address bar C. The content of the web page D. The new tab button
24	A /An ... is an individual who initiates a new business and bears most of the risks associated and enjoys most of the rewards.	A. Buyer B. Seller C. Entrepreneur D. Investor
25	The window in use on the desktop is known as a.	A. Actual B. Dynamic C. Active D. Live
26	What can alternate solutions enhance in regard to a problem.	A. The value of the ideal soltion B. The result that should be achieved C. The risk of failure D. The difficulty level of the solution.
27	What is the first screen that appears when you start a Windows computer.	A. Desktop B. Start Screen C. Login Screen D. Notification Area
28	What is the goal of digital citizenship	A. To misuse technology B. To ignore digital issues C. To safely and responsibly use digital technologies. D. To restrict access to technology
29	What is Scratch used for.	A. Animations B. Stories C. Interactive Games D. All of the above
30	What is an important aspect of a citizen's behaviour	A. Intolerance B. Dishonesty C. Disregard for the rights of others D. Tolerance
31	What is the purpose of the "modulus" operation in analgorithm	A. To stor evalues in a varibale B. To determing the remainder of a division C. To compare two numbers D. To perform arithmetic operations

32	What is the main purpose fo entertainment software.	A. Enhance the learning skills B. Provide information C. Provide entertainment D. Provide secrity
33	What are come examples of ICT devices used in communication	A. Cell Phones B. Personal Computers C. Navigation system D. 3 D Printers
34	Input device which is used to transfer hardcopy into a computer is called.	A. Mouse B. Joystic C. Scanner D. Keyboard
35	What two main elements make up a computer system.	A. Input and output devices B. Hardware and software C. Arithmetic and logical unit D. Control and memory unit
36	What is the first step in changing the background image on the Windows desktop.	A. Click on the show Desktop button B. Right -click on the desktop C. Open the file explorere D. Click on the start btton
37	Devices that are used to display the result of processing are called.	A. Output devices B. Input devices C. Storage Devices D. Processing devices
38	What is the result of bunding many programs together to perform a big task.	A. A program B. A physical component C. A software D. A computer language
39	Which of the followig is NOT a benefit of algorithmic thinking.	A. Decomposition B. Abstraction and Generalization C. Visualization D. Pattern Recognition
40	What is a hard disk drive.	A. A volatile secondary storage device B. An optical storage device C. Aprimary storage device D. A non-volatile secondary storage device
41	What is the reslut of an unclearly defined problem.	A. It requires guess work B. It is easily solvable C. It contains ambiguity D. It has a clear goal
42	What is the main function of the CPU in a computer system.	A. Inputting data B. Storing data C. Processing data D. Displaying data
43	The final step in the entrepreneurial process is.	A. Planning B. Resourcing C. Harvesting D. Developing
44	The device that is used to input sound in the coputer is known as.	A. Joystic B. Speaker C. Microphone D. Light pen
45	What is the purpose of an antivirus utility.	A. To manage file operations B. To protect the computer from malware and virus attacks C. To perform disk cleanup D. To compress files
46	What is the reward for successful entreprenurship	A. Losses B. Decreased prevalence in the market C. Profit, fame, nd growth opportunities D. None of the above
47	What was the period of ourth generation computers.	A. 1940-1955 B. 1957-1963 C. 1971-1980 D. 1964-1971
48	Who is a combination of an innovator and a hustler.	A. Small business entrepreneur B. Large company entrepreneur C. Scalable startup entrepreneur D. Imitator entrepreneur

49	In..... flow , set of statements in executed again and again until a cerain condition remains true.	A. Repetitive B. Sequential C. Conditional D. None
50	A problem is considered easy whenit.	A. Requires a lot of resources to solve. B. Requires a lot of time to solve C. Can be solved in simple steps, even if it is large D. Is not possible to solve.
51	What is the purpose fo an assembler in assembly programming languages.	A. To translate the code into machine language B. To run the program C. To stor the program D. To debug the program
52	What is the currency in source analysis.	A. Relevancy of the information B. Time lines of the information C. Realiability of the content D. Reason for the information existence
53	What does the show blk do.	A. Make the sprite disappear B. Makes the sprite appear on the stage C. Make the sprite chagne color D. None of the above
54	What type of data can be entered into a computer using a microphone.	A. Text data B. Video data C. Audio data D. Image data
55	There are types of entrepreneurships	A. 4 B. 5 C. 7 D. 9
56	When did the use of fourth generation computers start.	A. 1940 B. 1957 C. 1971 D. 1980
57	----- Plagiarism means coping phrases and idea's from different sources.	A. Self B. Global C. Patchwork D. Paraphrasing
58	An entrepreneur is a person who	A. Manages a business B. Starts and manages a new business venture C. Invests ina business D. Provides financial support to a business
59	What is a problem is problem-solving.	A. A task to be performed B. A situation to be analyzed C. A solution to be selected D. A plan to be implemented
60	What is the default character called in Scratch	A. Stage B. Sprites C. X and Y D. Script Area
61	How ICT can be helpful in improving decision-making.	A. Data Visualization B. Environmental monitoring C. Business Intelligence D. Predictive analytics
62	Presenting other's work or ideas as your with or without consetn is called.	A. Copy right B. Piracy C. Plagiarism D. None
63	What is the primary benffit of using algorithmic thinking in problem solving.	A. Faster prblem solving B. Improved confidence in decision making C. Increased efficiency in proncessing data D. All of the above
64	What is the most commonly used capacity measurement unit for Hard Disk Drives.	A. Magebytes B. Gigabytes C. Terabytes D. Zettabytes

		D. Extra questions
65	CPU is also called.	A. Hear fo computer B. Lungs of computer C. Hand of computer D. Brain of computer
66	What is a variable in programming.	A. A constant value B. A syntax rule C. A memory location with a name D. A changeable value
67	What is the fifth step, in the prblem-solving process.	A. Test the solution B. Selecting the best solution C. Problem analysis D. Planning solution
68	Which of the following are type of monitor.	A. LCD B. TFT C. SMD D. All
69	Thinking the domain of problem and ignoring irrelevant material is called.	A. Algorithmic design B. Pattern identificaiton C. Problem decomposition D. Abstraction
70	The function of operating system in system software is to.	A. Connect to the internet B. Control devices and peripherals C. Run the hardware and application programs D. Perform specific functions for the user
71	What is the primary responsibility of an entrepreneur.	A. To manage existing businesses B. To provide financial support C. To start and manage a new business venture D. To invest in businesses
72	----- is the link to the original file	A. Icon B. Shortcut C. Taskbar D. Folder
73	Peripheral devices are used for.	A. Inpute , storage, display B. Process and store data C. Connect peripherals D. Run software
74	What is the first step in developing a program.	A. Writing the program B. Analyzing the problem C. Designing the solution D. Documenting and maintaining the program
75	Which of following is not computer lab rule.	A. No food or drinks B. Save your work often C. Do not use printer in lab D. Do not go on unapproved sites
76	The main goal of the pasta recipe problem analysis is to determjne the	A. Size of matrix B. Solution of maze C. Ingredients of pasta D. Starting and ending points of the maze
77	What is a file is a computer.	A. A common storage unit for data B. A virtual place for applications and data C. A link to the file D. A storage device
78	How ICT can be helpful in improving customer services.	A. Automated customer service B. E-Commerce C. Chatbots D. Online learning platforms
79	What is the final step in the systematic problem-solving process.	A. Problem definition B. Problem alysis C. Planning solution D. Selecting the best solution
80	What are teh important commands on the top right of the title bar in an active window.	A. Minimize, Maximize and close buttons B. Search box, Minimize and Close buttons C. Minimize , maximize and Search box D. Maximize. close and search box

81	What type of data can a magnetic field sensor record.	A. Magnetic field B. Motion C. Humidity D. Sound
82	The first step in the systematic problem-solving process is.	A. Problem analysis B. Problem definition C. Identifying the problem D. Selecting the best solution
83	What type of operating system is Windows.	A. Open -source software B. Computer operating software used by apple C. Graphical operating system developed by Microsoft D. UNIX-like, community-developed and open -source -operating system
84	What is the Looks block category used for in Scratch.	A. Moving sprite B. Changing sprite appearance C. Controlling script flow D. Playing sounds
85	What is the importance of using critical thinking on the internet.	A. To promote misinformation B. To facilitate informed decision making C. To ignore digital issues D. To restrict access to technology
86	What is a program.	A. A set of instructions to perform a specific task B. A collection of data and images C. A computer language D. A software with a user interface.
87	What is a member of a community called.	A. Resident B. Citizen C. Immigrant D. Alien
88	What is the benefit of typing accurately.	A. To type faster B. To type more efficiently C. To type with more style D. To type with more flair
89	How many steps are there in the problem solving process.	A. 4 B. 5 C. 6 D. 7
90	What are the two directions in which a robot can move in a maze problem.	A. Forward and down B. Up and left C. Right and down D. Forward and back
91	A software that is developed to do a specific task on the computer is called.	A. Operating system B. Entertainment software C. Gaming software D. Gaming software
92	What was used for the circuitry in first generation computers.	A. Vacuum tubes B. Transistors C. Integrated circuits D. Microprocessors
93	What can be done from the personalize option on the desktop in Windows.	A. Change the desktop background B. Change the icons C. Change the desktop layout D. All of the above
94	The purpose of hardware interfaces in a computer system is to	A. Run software application B. Store data C. Connect peripheral devices to the system unit D. Connect the system unit to the internet
95	Looking for similarities among the problems is called.	A. Algorithmic design B. Pattern identification C. Abstraction D. Problem decomposition
96	First step of systematic process of problem solving is.	A. Problem analysis B. Planning solution C. Problem identification D. Test solution

97	The process of moving from one web page to another is known as.	B. Switching C. Transferring D. Browsing
98	What does the change size by block do in the looks block category.	A. Changes the size of the sprite by a given amount B. Displays text in a thought bubble C. Makes the sprite disappear D. Plays a sound and waits for it to finish
99	--- are entrepreneurs who use others business ideas as inspiration but work towards improving them.	A. Imitators B. Hustlers C. Scalable D. Social
100	----- is called father of computer.	A. Pascal B. Howard Aiken C. Charles Babbage D. Al-Khwarizmi
101	What is self-Plagiarism.	A. Reusing work that you have already submitted B. Reusing work that someone else has submitted C. Creating new work without referencing sources. D. Properly citing sources in previous work.
102	In flow, steps will be executed in the same sequence they are written in.	A. Repetitive B. Conditional C. Sequential D. None
103	Which of the following is not an input device.	A. Keyboard B. Speaker C. Mouse D. Scanner
104	What is the main purpose of a computer.	A. to process data and produce the desired information B. To save data C. To provide input D. To display output
105	Software that is designed to run computer's hardware is called.	A. Application software B. Utility software C. System software D. Embedded software
106	What type of data does a pressure sensor record.	A. Magnetic field B. Motion C. Pressure D. Light
107	ICT devices are used in different industries for.	A. Picking goods B. 3D Printing C. Lifting heavy parts D. All
108	What is the purpose of the Close button in an active window.	A. Minimize the window B. Fill the entire desktop screen C. Close the active window D. Hide the active window from the view
109	What does the variables category in Scratch contain.	A. Blocks for sprite looks B. Blocks for sprite movement C. Block for variable creating and use D. Blocks for sprite detection
110	We can do on a search engine.	A. Research a topic and gather information about it B. Open emails C. Play games D. Access files
111	What is the purpose of a search engine.	A. To play games B. To open emails C. To search for information on the internet D. To provide go;rd
112	----- is a type of intellectual property rights that protect original works of an owner.	A. Plagiarism B. Piracy C. Copyright D. None

113	What is the purpose for planning a solution to a problem.	A. To minimize the risk of failure B. To ensure a successful execution C. To determine the most ideal solution D. Both A and B
114	Which of the following is not part of CPU	A. CU B. AU C. MU D. CPU
115	How can video content help a business grow.	A. By providing virtual assistant services B. By preventing data breaches C. By increasing brand awareness and conversions D. By measuring user engagement and loyalty
116	----- is the collection of files.	A. Folder B. Desktop C. Icons D. Applications
117	What is the use of Google Analytics for small or medium-sized organizations.	A. To provide excellent customer service B. To measure user engagement and loyalty C. To steal competitors' customers D. To improve marketing campaigns
118	ICT is Eco-friendly because it has eliminated the use of.	A. Computer B. Mobile C. Printers D. Papers
119	What type of flow is used to print a table of given number up to 10.	A. Sequential flow B. Conditional flow C. Repetitive flow D. None of the above
120	The best-known example of system software is.	A. Microsoft Office B. Photoshop C. Operating system D. Excel
121	Who introduced the idea of internally stored programs in computers.	A. John von Neumann B. Bill Gates C. Steve Jobs D. Mark Zuckerberg
122	What type of data can a computer store for future use.	A. Input data only B. Output data only C. Both input and output data D. Neither input nor output data
123	What is the variable block category used for in Scratch.	A. Moving sprite B. Creating variables C. Controlling script flow D. Playing sounds
124	Set of instructions given to a computer to perform specific task is called.	A. Hardware B. Software C. Both A and B D. None
125	What is the purpose of limiting hand and finger movement while typing.	A. To play games B. To increase typing speed C. To improve typing style D. To increase typing accuracy
126	What type of translator is needed for assembly language.	A. High-level language translator B. Intermediate language translator C. Assembler program D. Program constructs translator
127	Which of the following is not typically considered a component of ICT.	A. Communication devices B. Television C. Cell Phones D. Refrigerators
128	Breaking down a big problem into smaller problems is called.	A. Problem identification B. Problem decomposition C. Planning solution D. Selecting best solution

A. The source of the information
B. The reliability and correctness of

129	What does authority in source analysis refer to.	the content C. The timelines of the information D. The reason for which the information exists
130	A business does not require a physical existence.	A. Traditional B. Commercial C. Digital online D. Conventional
131	What is the process of algorithmic thinking.	A. A series of systematic and logical steps B. A way of solving a specific problem C. A process without clear instructions D. A way of breaking down problem into smaller problems.
132	What is the role of online communication in digital citizenship	A. To restrict communication B. To promote miscommunication C. To facilitate communication D. To ignore communication
133	What is the main cause for eye-strain when using a computer for a long time.	A. Bad sitting posture B. Repetitive movements C. Looking at a monitor from a constant distance D. Poor lighting
134	Operating system is an example of.	A. Application software B. Utility software C. System software D. Embedded software
135	MS Office is an example of.	A. System software B. Utility software C. Application software D. Embedded software
136	What is the effect of displaying "before and after" pictures in certain businesses.	A. Better marketing campaigns B. Increased brand awareness C. Turning prospects into serious buyers D. Improved customer service
137	What is the purpose for a shortcut.	A. To make it easier to access a file or folder B. To store data in a separate unit C. To organize files and folders in a virtual location D. To open and edit a file
138	What are some examples of productivity apps for business owners and managers.	A. Slack and Asana B. Roambi and Keynote C. Google Analytics and Twitter D. Basecamp and Trello
139	----- is the process to test the software to eliminate the errors in it.	A. Problem solving B. Updating C. Developing D. Debugging
140	How does a digital citizen participate in society, politics and government.	A. Ignores digital technology B. Unaware of digital impact C. Uses the internet and technology effectively D. Doesn't use digital tech
141	The system used to control and monitor movement of cars and crafts is called.	A. Communication system B. Navigation system C. Digital experiments
142	What does algorithmic thinking provide a unique way to solve.	A. Problems in general B. A specific problem C. A new and improved system D. Irrelevant detail
143	The process of retrieving data and information from a computer storage is called.	A. Input B. Output C. Processing D. Retrieval
144	What is a joystick in a computer system.	A. A cursor control device B. A stick used to move the cursor position C. A pen used to select a menu item D. A device used to input sound into the computer

145	What should you do if someone asks to meet you online.	A. Agree B. Disagree C. Tell an adult D. Ignore
146	What is the goal of problem-solving.	A. To generate appropriate solutions B. To identify the problem C. To test the solution D. To plan the solution
147	What was the period of second generation computers.	A. 1940-1955 B. 1957-1963 C. 1964-1971 D. 1971-1980
148	The is where we create the program in scratch.	A. Sprite list B. Block palette C. Script area D. Stage
149	The character in Scratch is called.	A. Kodu B. Cat C. Sprite D. Program
150	What type of software allows users to create and edit digital art.	A. Entertainment software B. Productivity and reference software C. Education and reference software D. Security software
151	----- plagiarism means recycling your own previous work.	A. Global B. Self C. Patchwork D. Paraphrasing
152	What is the primary goal of a social entrepreneur.	A. To make big profits or wealth B. To make the world a better place C. To rapidly expand and get big profit returns D. To acquire knowledge of how to sustain innovation
153	----- has enabled business owners and leaders to stay on top of their projects by tracking time and progress.	A. Investments B. Risks C. Ethics D. Technology
154	What category of the block is used to check the specified condition in Scratch.	A. Even Block B. Look Block C. Control Block D. Motion Block
155	What is the purpose of confidentiality while surfing online.	A. To protect the identity of participants B. To share personal information C. To determine if the information is timely D. To ensure the information is relevant to your work
156	What are instructions given to the computer called?	A. Algorithms B. Documentation C. Flowcharts D. Programs
157	Responsible digital citizenship also means.	A. Behaving lawfully B. Protecting your privacy and that of others C. Recognizing your rights D. All
158	Which of the following tool in Paint 3D is used to copy.	A. Crop tool B. Snipping tool C. Clone stamp tool D. Curve tool
159	What type of display is used in modern monitors.	A. CRT B. SMD LED C. TFT or LCD D. Plasma Display
160	In..... flow steps are executed only if a certain condition is true.	A. Repetitive B. Sequential C. Conditional D. None
161	Which of the following is not a service or application that is typically included under the	A. Video conferencing B. Distance learning

161	Which of the following is not a service or application that is typically included under the umbrella of ICT.	B. Distance learning C. Gardening D. Social Media
162	What is another responsibility for a citizen.	A. Taking responsibility for others actions B. disrespecting the property of others C. Lack of compassion D. Taking responsibility for your actions
163	What is the function of Solid State Drive.	A. To store data permanently B. To store data temporarily C. To store data for a limited time D. To store data only when the computer is turned off.
164	What does the success of entrepreneurship depend on.	A. Financial support B. Investment C. Taking on risks D. Business management skills
165	What is the final result of data processing referred to as.	A. Input B. Processing C. Output D. Storage
166	A person who develops the skills to effectively use the internet and other digital technology are called.	A. Citizen B. Digital Citizen C. Technical citizen D. New citizen
167	A program is a set of instructions that are used by the computer to perform a specific task.	A. Decision making B. Tasks C. Program D. Instructions
168	Difference between digital citizen and tech-aware person.	A. Active participation vs no participation B. No difference C. Informed vs uninformed D. Uses technology vs doesn't use technology
169	What is the process of figuring out the 5 Ws from the problem statement.	A. Problem identification B. Problem definition C. Problem analysis D. Deconstruction
170	All mathematical operations in a computer are performed by.	A. Memory unit B. Control Unit C. Arithmetic unit D. Storage unit
171	What happens if a program contains a syntax error.	A. It runs correctly B. It crashes C. It has unintended results D. It has no effect
172	What should you think about before sharing information online.	A. How to share it B. Who to share it with C. What to share D. All of the above
173	You can open the previously saved program from the computer by clicking on the..... menu.	A. View B. Edit C. File D. Save
174	How can ICT be helpful in financial matters.	A. E-banking B. Electronic fund transfer C. Automating financial transactions D. Online government services
175	What is the main purpose of an algorithm.	A. To store information B. To solve a specific problem C. To perform a specific task D. To automate the decision-making process
176	What is the latest stable version of Windows as of 2022.	A. Windows 10 B. Windows 8 C. Windows 7 D. Windows 11
177	Every algorithm has..... and	A. Loop, condition B. Start, stop C. finite, infinite loops D. Sequence, conditions

		D. Sequence, conditions
178	What are programs translated in to by compilers and translators.	A. Data and images B. A user interface C. Machine languages D. A computer language
179	What does the Sprite List in Scratch show.	A. X and Y coordinates B. Script blocks C. Used sprites D. Stage background
180	What is the function of a Hard Disk Drive.	A. To store data only when the computer is turned off B. To store data permanently C. To store data temporarily D. To store data for a limited time
181	How do you add a block to the Scratch program.	A. Right click on the block B. Press Ctrl+ Z C. Click and drag D. Click on Load
182	What type of memory is used to temporarily store data for processing by the CPU.	A. RAM B. ROM C. Hard disk D. Flash Drive
183	What is a mouse in a computer system.	A. A joystic device B. A light pen device C. A microphne device D. A cursor -control device
184	Theact of illegally reproducing copy righted material is called.	A. Paraphrasing B. Accuracy C. Piracy D. Plagiarism
185	A----- is a value that remains consistent durng the execution of a program.	A. Numbers B. Variable C. Constant D. Algorithm
186	What does a light pe consist of	A. A laser beam at its base B. A sphericla ball at its lower end C. A photocell and an opticta system D. A microphone
187	----- is process of defining and decomposing of a problem.	A. Problem analysis B. Planning solution C. Problem identification D. test solution
188	Antivirus is an example of.	A. Application sotware B. Utility program C. Device driver D. Operating system
189	----- plagiarism means plagiarizing an entire text.	A. Self B. Patchwork C. Global D. Paraphrasing
190	----- is a visual programming software.	A. Word B. Excel C. Scratch D. Microsfot Windows
191	Which of following is type fo sensor.	A. Sound sensor B. Pressure sensor C. Light sensor D. All
192	How cna we run the script in Scratch.	A. Click on the block in the Script Area B. Click on Load from the computer C. Click on save to computer D. Click on the file menu
193	----- is finite sequence of instruction to solve a specific problem.	A. Unspecified instructions B. Specific instructions C. Algorithm D. None
194	What is the final step in most algorithms.	A. Start B. Input C. Output D. Stop

195	The category in scratch has blcks for the sprite to ask questions.	A. Looks B. Sound C. Operators D. Sensing
196	What is a doodle in the context of 3D models.	A. A random drawing or scribbling B. A predetermined shape C. A 2 D image D. A 3D illustration
197	What is plagiarism.	A. Presenting your own work as someone else's B. Presenting someone else's work as your own C. Creating original work without referenceing sources D. Not using sources at all
198	The purpose of software is to.	A. Tell a computer how to function B. Monitor the compuer's hardware C. Store data and information D. Connect to the internet
