

Computer 6th Class Urdu Medium Chapter 4 Online Test

Sr	Questions	Answers Choice
1	What is it important for citizens to be compassionate.	A. To harm others B. To show disregard for others C. To spread negativity D. To promote empathy and understanding
2	What is the goal of defining a problem.	A. To make it more complex B. To add ambiguity C. To make it more simple and clear D. To make it impossible to solve
3	What type of device is a microphone in a computer system.	A. Output device B. Input device C. Memory device D. Control device
4	----- is the process to test the software to eliminate the errors in it.	A. Problem solving B. Updating C. Developing D. Debugging
5	The act of illegally reproducing copyrighted material is called.	A. Paraphrasing B. Accuracy C. Piracy D. Plagiarism
6	How ICT can be helpful in improving decision-making.	A. Data Visualization B. Environmental monitoring C. Business Intelligence D. Predictive analytics
7	What is the first screen that appears when you start a Windows computer.	A. Desktop B. Start Screen C. Login Screen D. Notification Area
8	A software that is developed to do a specific task on the computer is called.	A. Operating system B. Entertainment software C. Gaming software D. Gaming software
9	The process of moving from one web page to another is known as.	A. Changing B. Switching C. Transferring D. Browsing
10	----- plagiarism means plagiarizing an entire text.	A. Self B. Patchwork C. Global D. Paraphrasing
11	What type of software allows users to create and edit digital art.	A. Entertainment software B. Productivity and reference software C. Education and reference software D. Security software
12	How do you add a block to the Scratch program.	A. Right click on the block B. Press Ctrl+ Z C. Click and drag D. Click on Load
13	What is the Looks block category used for in Scratch.	A. Moving sprite B. Changing sprite appearance C. Controlling script flow D. Playing sounds
14	What is a file on a computer.	A. A common storage unit for data B. A virtual place for applications and data C. A link to the file D. A storage device
15	First step of systematic process of problem solving is	A. Problem analysis B. Planning solution

15	First step of systematic process of problem solving is:	C. Problem identification D. Test solution
16	OCR stand for	A. Optical corret Reading B. Optical Character Reader C. Optimal Copy Reading D. Optical Character Reading
17	A----- is a value that remains consistent during the execution of a program.	A. Numbers B. Variable C. Constant D. Algorithm
18	What is the main difference between social entrepreneurship and scalable startup entrepreneurship	A. The focus of the business B. The size of the business C. The kind of employees hired D. The goal of the business
19	What is the use fo Google Analytics for small or medium-sized organizations.	A. To provide excellent customer service B. To measure user engagement and loyalty C. To steal competitors customers D. To improve marketing campaigns
20	The purpose of software is to.	A. Tell a computer how to function B. Monitor the compuer's hardware C. Store data and information D. Connect to the internet
21	What does the success of entrepreneurship depends on	A. Financial support B. Investment C. Taking on risks D. Business management skills
22	What does authority in source analysis refer to.	A. The source of the information B. The reliability and correctness of the content C. The timelines of the information D. The reason for which the information exists
23	What type of data cna a computer store for future use.	A. Input data only B. Output data only C. Both input and output data D. Neither input nor output data
24	What type of flow is used to print a table of given number up to 10.	A. Sequential flow B. Conditional flow C. Repetitive flow D. None of the above
25	What are come examples of ICT devices used in communication	A. Cell Phones B. Personal Computers C. Navigation system D. 3 D Printers
26	There are types of entrepreneurships	A. 4 B. 5 C. 7 D. 9
27	What is the importanc eof using critical thinking on the internet.	A. To promote misinformation B. To facilitate informed decision making C. To ignore digital issues D. To restrict access to technology
28	What shuld you do if someone asks to meet you online.	A. Agree B. Disagree C. Tell an, adult D. Ignore
29	What does the show blk do.	A. Make the sprite disappear B. Makes the sprite appear on the stage C. Make the sprite chagne color D. None of the above
30	When did the use of fourth generation computers start.	A. 1940 B. 1957 C. 1971 D. 1980
31	What is plagiarism.	A. Presenting your own work as someone else's B. Presenting someone else's work as your own C. Creating original work without

		referenceing sources D. Not using sources at all
32	How can video content help a business grow.	A. By providing virtual assistant services B. By preventing data breaches C. By increasing brand awareness and conversions D. By measuring user engagement and loyalty
33	What type of data can be entered into a computer using a microphone.	A. Text data B. Video data C. Audio data D. Image data
34	What does a light pe consist of	A. A laser beam at its base B. A spherida ball at its lower end C. A photocell and an optica system D. A microphone
35	What type of operating system is Windows.	A. Open -source software B. Computer operating softwae used by apple C. Graphical operating systme developed by Microsoft D. UNIX-like, community-developed andopen -source -operating system
36	In..... flow , set of statements in executed again and again until a cerain condition remains true.	A. Repetitive B. Sequential C. Conditional D. None
37	What is a member of a community called.	A. Resident B. Citizen C. Immigrant D. Alien
38	What does algorithmic thinking provide a unique way to solve.	A. Problems is general B. A specific problem C. A new and improved system D. Irrelevant detail
39	In..... flow steps are executed only if certain condition is true.	A. Repetitive B. Sequential C. Conditional D. None
40	You can open the previously saved program from the computer by clicking on the..... menu.	A. View B. Edit C. File D. Save
41	Looking for similarites among the problems is called.	A. Algorithmic design B. Pattern identification C. Abstraction D. Problem decomposition
42	What is displayed in the webpage section of a web browser.	A. The menu buttons B. The address bar C. The content of the web page D. The new tab button
43	Which of following is type fo sensor.	A. Sound sensor B. Pressure sensor C. Light sensor D. All
44	Responsible digital citizenship also means.	A. Behaving lowfully B. Protecting your privacy and that of others C. Recognizing yur rights D. All
45	What is Scratch used for.	A. Animations B. Stories C. Interactive Games D. All of the above
46	Which of the following is not an input device.	A. Keyboard B. Speaker C. Mouse D. <div>Scanner</div>
47	Who is a combination of an innovator and a hustler.	A. Small business entrepreneur B. Large company entrepreneur C. Scalable startup entrepreneur D. Imitator entrepreneur

48	What is a variable in programming.	A. A constant value B. A syntax rule C. A memory location with a name D. A changeable value
49	What is the result of an unclearly defined problem.	A. It requires guess work B. It is easily solvable C. It contains ambiguity D. It has a clear goal
50	What is the significance of programming skills for students.	A. To become digital consumers B. To maximize technology investments C. To troubleshoot automation tools D. None of the above
51	What is an example of application software.	A. Windows OS B. Office Suite C. Printer D. Game Controller
52	The process of retrieving data and information from a computer storage is called.	A. Input B. Output C. Processing D. Retrieval
53	What is another responsibility for a citizen.	A. Taking responsibility for others actions B. disrespecting the property of others C. Lack of compassion D. Taking responsibility for your actions
54	An entrepreneur is a person who	A. Manages a business B. Starts and manages a new business venture C. Invests in a business D. Provides financial support to a business
55	What should you think about before sharing information online.	A. How to share it B. Who to share it with C. What to share D. All of the above
56	Which of the following are types of monitor.	A. LCD B. TFT C. SMD D. All
57	Devices that are used to display the result of processing are called.	A. Output devices B. Input devices C. Storage Devices D. Processing devices
58	A problem is considered easy when it.	A. Requires a lot of resources to solve. B. Requires a lot of time to solve C. Can be solved in simple steps, even if it is large D. Is not possible to solve.
59	What type of data can a magnetic field sensor record.	A. Magnetic field B. Motion C. Humidity D. Sound
60	Scratch is a visual programming software.	A. Word B. Excel C. Scratch D. Microsoft Windows
61	MS Office is an example of.	A. System software B. Utility software C. Application software D. Embedded software
62	What is the purpose of the Close button in an active window.	A. Minimize the window B. Fill the entire desktop screen C. Close the active window D. Hide the active window from the view
63	An algorithm is a finite sequence of instructions to solve a specific problem.	A. Unspecified instructions B. Specific instructions C. Algorithm D. None

64	A person who develops the skills to effectively use the internet and other digital technology are called.	A. Citizen B. Digital Citizen C. Technical citizen D. New citizen
65	What is the currency in source analysis.	A. Relevancy of the information B. Time lines of the information C. Realibility of the content D. Reason for the information existence
66	What is the purpose of limiting hand and finger movement while typing.	A. To play games B. To increase typing speed C. To improve typing style D. To increase typing accuracy
67	Presenting other's work or ideas as your with or without consetn is called.	A. Copy right B. Piracy C. Plagiarism D. None
68	What is a program.	A. A set of instructions to perform a specific task B. A collection of data and images C. A computer langauge D. A software with a sure interface.
69	Whaare instrcutions gives to the computer called.t	A. Algorithms B. Documentation C. Flowcharts D. Programs
70	The purpose of decomposition in algorithmic thinking is to	A. Solve a specific probloem B. Design new and improved systems C. Break down complicated problems into smaller problems D. Identify the sequence of operations
71	What is a problem is problem-solving.	A. A task to be performed B. A situation to be analyzed C. A solution to be selected D. A plan to be implemented
72	What is the main cause fo eye-strain when using a computer for a long time.	A. Bad sitting posture B. Repetitive movements C. Lookign at a monitor from a constant distance D. Poor lighting
73	The function of operating system in system software is to.	A. Connect to the internet B. Control devices and peripherals C. Run the hardware and application programs D. Perform specific functions for the user
74	What is the function fo USB Flash Memory.	A. To stor edata for a limited time B. To store data Temporarily C. To store data permanetly D. To store data only when computer is turned off
75	What are teh two most common types of printers.	A. Inkjet and CRT B. Laser and CRT C. Inkjet and Laser D. CRT and Plotter
76	What type fo health issue can occur in the wrist after using a computer for a long time.	A. Eye -Strain B. Back and neck pain C. Fatigue D. Repetitive strain injury
77	What is the function of Sold State Drive.	A. To sgstore data permanently B. To store data temporarily C. To store data for a limited time D. To store data only when the computer is turned off.
78	What is the default character called in Scratch	A. Stage B. Sprites C. X and Y D. Script Area
79	A----- is a set of instructions tha tar eused by the computer to perform a specific task.	A. Decision smaking B. Tasks C. Program D. Instructions

80	----- is process of defining and decomposing of a problem.	A. Problem analysis B. Planning solution C. Problem identification D. test solution
81	What is the most commonly used capacity measurement unit for Hard Disk Drives.	A. Magebytes B. Gigabytes C. Terabytes D. Zettabytes
82	Antivirus is an example of.	A. Application sotware B. Utility program C. Device driver D. Operating system
83	What was the period of ourth generation computers.	A. 1940-1955 B. 1957-1963 C. 1971-1980 D. 1964-1971
84	We can change the size of the marker using the tool.	A. Eraser B. Marker C. Crayon D. Canvas
85	--- are entrepreneurs who use others business ideas as inspiratio but work towards iproving them.	A. Imitators B. Hustlers C. Scalable D. Social
86	What are teh important commands on the top right of the title bar in an active window.	A. Minimize, Maximize and close buttons B. Search box, Minimize and Close buttons C. Minimize , maximize and Search box D. Maximize, close and search box
87	E-b business generally has less or..... no costs.	A. Hidden B. Fixed C. Overhead D. Variable
88	What was used for the circuitry in first generation computers.	A. Vacuum tubes B. Transistors C. Integrated circuits D. Microprocessors
89	What is the final step in most algorithms.	A. Start B. Input C. Output D. Stop
90	What is the primary goal of a social entepreneur.	A. To make big profits or wealth B. To make the world a better place C. To rapidly expand and get big profit returns D. To acquire knowledge of how to sustain innovation
91	What does the Sprite List in Scratch show.	A. X and Y coordinates B. Script blocks C. Used sprites D. Stage background
92	Breaking down a big problem in to smaller problems is called.	A. Problem identification B. Problem decomposition C. Planning solution D. Selecting best solution
93	----- is called father fo computer.	A. Pascal B. Howard Aiken C. Charles Babbage D. Al-Khwarizmi
94	In flow , steps will be executed in the same sequence they are written in.	A. Repetitive B. Conditional C. Sequential D. None
95	What replaced vacuum tubes in second generation computers.	A. RAM B. Integratd circuits C. Transistors D. Microprocessors
96	What is the primary responsibility of an entrepreneur.	A. To manage existing businesses B. To provide financial support C. To start and manage a new

		business venture D. To invest in businesses
97	What is the process of algorithmic thinking.	A. A series of systematic and logical steps B. A way of solving a specific problem C. A process without clear in instructions D. A way of breaking down problem into smaller problems.
98	----- Plagiarism means coping phrases and idea's from different sources.	A. Self B. Global C. Patchwork D. Paraphrasing
99	What is the purpose of the "modulus" operation in analgorithm	A. To stor evalues in a varibale B. To determining the remainder of a division C. To compare two numbers D. To perform arithmetic operations
100	What is the goal of digital citizenship	A. To misuse technology B. To ignore digital issues C. To safely and responsibly use digital technologies. D. To restrict access to technology
101	Which of the followig is NOT a benefit of algorithmic thinking.	A. Decomposition B. Abstraction and Generalization C. Visualization D. Pattern Recognition
102	What is the latest release date of Mac.	A. March 2022 B. July 2022 C. August 2022 D. September 2022
103	What is the goal of problem -solving.	A. To generate appropriate solutions B. To identify the problem C. To test the solution D. To plan the solution
104	----- plagiarism means recycling your own previous work.	A. Global B. Self C. Patchwork D. Paraphrasing
105	What is the function of a Hard Disk Drive.	A. To store data only when the computer is turned off B. To store data permanently C. To store data temporarily D. To store data for a limited time
106	Peripheral devices are used for.	A. Inpute , storage, display B. Process and store data C. Connect peripherals D. Run software
107	What is self -Plagiarism.	A. Reusing work that you have already submitted B. Reusing work that someone else has submtted C. Creating new work without referencing sources. D. Properly citing sources in previous work.
108	What is the reward for successful entreprenurship	A. Losses B. Decreased prevalence in the market C. Profit, fame, nd growth opportunities D. None of the above
109	What type of display is used in modern monitors.	A. CRT B. SMD LED C. TFT or LCD D. Plasma Display
110	We can we do on a search engine.	A. Research a topic and eather information about it B. Open emials C. Play games D. Access files
111	What tyme of data does a pressure sensor record	A. Magnetic field B. Motion

111	What type of data does a pressure sensor record.	C. Pressure D. Light
112	What is the main function of the CPU in a computer system.	A. Inputting data B. Storing data C. Processing data D. Displaying data
113	Which of the following tool is Paint 3D and is used to copy.	A. Crop tool B. Snipping tool C. Clone stamp tool D. Curve tool
114	What is the main purpose of an algorithm.	A. To store information B. To solve a specific problem C. To perform a specific task D. To automate the decision making process
115	Which of the following is NOT an example of utility software.	A. Antivirus B. Online shopping website C. File management tool D. Disk cleanup tool
116	The first step in the systematic problem-solving process is.	A. Problem analysis B. Problem definition C. Identifying the problem D. Selecting the best solution
117	The is where we create the program in Scratch.	A. Sprite list B. Block palette C. Script area D. Stage
118	What two main elements make up a computer system.	A. Input and output devices B. Hardware and software C. Arithmetic and logical unit D. Control and memory unit
119	The type of software is responsible for managing a computer's hardware and running other programs.	A. System software B. Application software C. Driver software D. Network software
120	ICT devices are used in different industries for.	A. Picking goods B. 3D Printing C. Lifting heavy parts D. All
121	The main goal of the pasta recipe problem analysis is to determine the	A. Size of matrix B. Solution of maze C. Ingredients of pasta D. Starting and ending points of the maze
122	What is a doodle in the context of 3D models.	A. A random drawing or scribbling B. A predetermined shape C. A 2D image D. A 3D illustration
123 is a type of intellectual property rights that protect original works of an owner.	A. Plagiarism B. Piracy C. Copy right D. None
124	Set of instructions given to a computer to perform specific task is called.	A. Hardware B. Software C. Both A and B D. None
125	Which of the following is not a computer lab rule.	A. No food or drinks B. Save your work often C. Do not use printer in lab D. Do not go on unapproved sites
126	What type of translator is needed for assembly language.	A. High-level language translator B. Intermediate language translator C. Assembler program D. Program constructs translator
127	What are programs translated into by compilers and translators.	A. Data and images B. A user interface C. Machine languages D. A computer language
128	What is the latest stable version of Windows as of 2022.	A. Windows 10 B. Windows 8 C. Windows 7 D. Windows 11

129	ICT is an umbrella term that includes.	A. Television B. Cell phones C. Communication devices D. All
130	----- has enabled business owners and leaders to stay on top of their projects by tracking time and progress.	A. Investments B. Risks C. Ethics D. Technology
131	Which of the following is not typically considered a component of ICT.	A. Communication devices B. Television C. Cell Phones D. Refrigerators
132	How can we run the script in Scratch.	A. Click on the block in the Script Area B. Click on Load from the computer C. Click on save to computer D. Click on the file menu
133	What is the purpose of a search engine.	A. To play games B. To open emails C. To search for information on the internet D. To save files
134	Thinking the domain of problem and ignoring irrelevant material is called.	A. Algorithmic design B. Pattern identification C. Problem decomposition D. Abstraction
135	What was the first device used for calculations.	A. Abacus B. Mechanical computer C. Integrated circuit D. Microprocessor
136	What is the first step in developing a program.	A. Writing the program B. Analyzing the problem C. Designing the solution D. Documenting and maintaining the program
137	What category of the block is used to check the specified condition in Scratch.	A. Even Block B. Look Block C. Control Block D. Motion Block
138	Operating system is an example of.	A. Application software B. Utility software C. System software D. Embedded software
139	What are some examples of productivity apps for business owners and managers.	A. Slack and Asana B. Roambi and Keynote C. Google Analytics and Twitter D. Basecamp and Trello
140	Input device which is used to transfer hardcopy into a computer is called.	A. Mouse B. Joystick C. Scanner D. Keyboard
141	Difference between digital citizen and tech-aware person.	A. Active participation vs no participation B. No difference C. Informed vs uninformed D. Uses technology vs doesn't use technology
142	What is the role of online communication in digital citizenship?	A. To restrict communication B. To promote miscommunication C. To facilitate communication D. To ignore communication
143	What is the main purpose of entertainment software.	A. Enhance the learning skills B. Provide information C. Provide entertainment D. Provide security
144	What is a joystick in a computer system.	A. A cursor control device B. A stick used to move the cursor position C. A pen used to select a menu item D. A device used to input sound into the computer

145	What is the variables bloc category used for in Scratch.	A. Moving sprite B. Creating variables C. Controlling script flow D. Playing sounds
146	What are the two directions in which a robot can move in a maze problem.	A. Forward and down B. Up and left C. Right and down D. Forward and back
147	What kind of software is used to enhance learning skills.	A. Entertainment software B. Productivity software C. Education and reference software D. Security software
148	What is the process of figuring out the 5 Ws from the problem statement.	A. Problem identification B. Problem definition C. Problem analysis D. Deconstruction
149	What is the purpose of planning a solution to a problem.	A. To minimize the risk of failure B. To ensure a successful execution C. To determine the most ideal solution D. Both A and B
150	Who introduced the idea of internally stored programs in computers.	A. John von Neumann B. Bill Gates C. Steve Jobs D. Mark Zuckerberg
151	What can alternate solutions enhance in regard to a problem.	A. The value of the ideal solution B. The result that should be achieved C. The risk of failure D. The difficulty level of the solution.
152	The purpose of hardware interfaces in a computer system is to	A. Run software application B. Store data C. Connect peripheral devices to the system unit D. Connect the system unit to the internet
153	What type of tasks can disk management tools perform.	A. File management operations B. Disk cleanup and organization tasks C. Back up and restore operations D. Compressing and decompressing files
154	A business does not require a physical existence.	A. Traditional B. Commercial C. Digital online D. Conventional
155	How ICT can be helpful in improving customer services.	A. Automated customer service B. E-Commerce C. Chatbots D. Online learning platforms
156	The character in Scratch is called.	A. Kodu B. Cat C. Sprite D. Program
157	What type of memory is used to temporarily store data for processing by the CPU.	A. RAM B. ROM C. Hard disk D. Flash Drive
158	What is the purpose of confidentiality while surfing online.	A. To protect the identity of participants B. To share personal information C. To determine if the information is timely D. To ensure the information is relevant to your work
159	What is the primary benefit of using algorithmic thinking in problem solving.	A. Faster problem solving B. Improved confidence in decision making C. Increased efficiency in processing data D. All of the above
160	In a light pen the sensing element is called.	A. Light cell B. Cell C. Photocell D. None

161	----- is the link to the original file	A. Icon B. Shortcut C. Taskbar D. Folder
162	What is the main purpose of a computer.	A. to process data and produce the desired information B. To save data C. To provide input D. To display output
163	Which of the following is not a service or application that is typically included under the umbrella of ICT.	A. Video conferencing B. Distance learning C. Gardening D. Social Media
164	How ICT can be helpful in financial matters.	A. E-banking B. Electronic fund transfer C. Automating financial transactions D. Online government services
165	What is a mouse in a computer system.	A. A joystick device B. A light pen device C. A microphone device D. A cursor -control device
166	What is the effect of displaying "before and after" pictures in certain businesses.	A. Better marketing campaigns B. Increased brand awareness C. Turning prospects into serious buyers D. Improved customer service
167	What is the fifth step, in the problem-solving process.	A. Test the solution B. Selecting the best solution C. Problem analysis D. Planning solution
168	What can be done from the personalize option on the desktop in Windows.	A. Change the desktop background B. Change the icons C. Change the desktop layout D. All of the above
169	The best-known example of system software is.	A. Microsoft Office B. Photoshop C. Operating system D. Excel
170	A /An ... is an individual who initiates a new business and bears most of the risks associated and enjoys most of the rewards.	A. Buyer B. Seller C. Entrepreneur D. Investor
171	What is an important aspect of a citizen's behaviour	A. Intolerance B. Dishonesty C. Disregard for the rights of others D. Tolerance
172	What is the first step in changing the background image on the Windows desktop.	A. Click on the show Desktop button B. Right-click on the desktop C. Open the file explorer D. Click on the start button
173	What is a hard disk drive.	A. A volatile secondary storage device B. An optical storage device C. A primary storage device D. A non-volatile secondary storage device
174	Software that is designed to run computer's hardware is called.	A. Application software B. Utility software C. System software D. Embedded software
175	The system used to control and monitor movement of cars and crafts is called.	A. Communication system B. Navigation system C. Digital experiments
176	How does a digital citizen participate in society, politics and government.	A. Ignores digital technology B. Unaware of digital impact C. Uses the internet and technology effectively D. Doesn't use digital tech
177	What is the purpose of an antivirus utility.	A. To manage file operations B. To protect the computer from malware and virus attacks C. To perform disk cleanup

		D. To compress files
178	What is the purpose of an assembler in assembly programming languages.	A. To translate the code into machine language B. To run the program C. To store the program D. To debug the program
179	The category in Scratch has blocks for the sprite to ask questions.	A. Looks B. Sound C. Operators D. Sensing
180	What is the final result of data processing referred to as.	A. Input B. Processing C. Output D. Storage
181	Which of the following is not part of CPU	A. CU B. AU C. MU D. CPU
182	ICT is Eco-friendly because it has eliminated the use of.	A. Computer B. Mobile C. Printers D. Papers
183	The window in use on the desktop is known as a.	A. Actual B. Dynamic C. Active D. Live
184	CPU is also called.	A. Heart of computer B. Lungs of computer C. Hand of computer D. Brain of computer
185	What happens if a program contains a syntax error.	A. It runs correctly B. It crashes C. It has unintended results D. It has no effect
186	How many steps are there in the problem solving process.	A. 4 B. 5 C. 6 D. 7
187	What is the result of bundling many programs together to perform a big task.	A. A program B. A physical component C. A software D. A computer language
188 is the collection of files.	A. Folder B. Desktop C. Icons D. Applications
189	Every algorithm has..... and	A. Loop, condition B. Start, stop C. finite, infinite loops D. Sequence, conditions
190	All mathematical operations in computer are performed by.	A. Memory unit B. Control Unit C. Arithmetic unit D. Storage unit
191	The device that is used to input sound in the computer is known as.	A. Joystick B. Speaker C. Microphone D. Light pen
192	What does the change size by block do in the looks block category.	A. Changes the size of the sprite by a given amount B. Displays text in a thought bubble C. Makes the sprite disappear D. Plays a sound and waits for it to finish
193	What does the variables category in Scratch contain.	A. Blocks for sprite looks B. Blocks for sprite movement C. Block for variable creating and use D. Blocks for sprite detection
194	What is the final step in the systematic problem-solving process.	A. Problem definition B. Problem analysis C. Planning solution D. Selection of the best solution

D. Selecting the best solution

195	What was the period of second generation computers.	A. 1940-1955 B. 1957-1963 C. 1964-1971 D. 1971-1980
196	The final step in the entrepreneurial process is.	A. Planning B. Resourcing C. Harvesting D. Developing
197	What is the purpose fo a shortcut.	A. To make it easier to access a file or folder B. To store data in a separate unit C. To organize files and folders in a virtual location D. To open and edit a file
198	What is the benefit of typign accurately.	A. To type faster B. To tye more efficiently C. To type with more style D. To type with more flair
