

Conditional Logic

Sr	Questions	Answers Choice
1	_____ statement executes the set of statements under if statement if the condition is true and executes the set of statements under else otherwise:	A. if else B. condition C. while D. compound
2	In which control all the statements are executed in the given sequence.	A. Error Control Statements B. Selection control statements C. Repetition control statements D. Sequential Control Statements
3	How many types of control statements	A. 1 B. 2 C. 3 D. 4
4	Which of the following is the default control structure in C language.	A. Sequential Control Statements B. Selection Control statements C. Repetition Control Statements D. Error Control Statements
5	Which of the following is the default control structure in C language ?	
6	The statements which help us to decide which statements should be executed next, on the basis of conditions, are called.	A. Error Control Statements B. Selection statements C. Sequential Control Statements D. Repetition Control Statements
7	A _____ could be any valid expression including arithmetic expressions, relational expressions, logical expressions:	A. if B. while C. compound D. condition
8	An if statement inside another if statement is called _____ structure:	A. nested B. boxed C. repeated D. decomposed
9	_____ statements describe the sequence in which statements of the program should be executed:	A. loop B. conditional C. control D. all
10	_____ statement executes the set of statements under if statements if the condition is true and execute the set of statements under else otherwise,	A. if - else B. condition C. while D. compound
11	A set of multiple instructions enclosed in braces is called a block or:	A. if B. compound C. while D. if else
12	Selection statements within selection statements are called:	A. if else B. condition C. while D. nested selection structures
13	If we want to associate more than one statements to an if statement, then they need to be enclosed inside a:	A. () B. * C. : D. {}
14	A condition can be any _____ expression:	A. arithmetic B. relational C. logical D. arithmetic, relational or logical
15	Which of the following is not a type of control statements in C language ?	
16	Conditional logic helps in, _____:	A. decision B. iterations C. traversing D. all
		A. Sequential Control Statements

- 17 Which of the following is not a type of control statements in C language.
B. Selection control statements
C. Repetitio contorl statements
D. Error Control Statements
-
- 18 A set of multiple instructions enclosed in braces is called a _____:
A. box
B. block
C. list
D. job
-
- 19 In whihc statement we -specify a condition, and associate a code to it.
A. go to
B. selection
C. If
D. loop
-
- 20 Whihc of the following is a decision statement is called.
A. Nested if
B. Simple if
C. Many if
D. Multiple if
-
