Altitude  A 1 C. 0 D. Not defined D1  The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  C. Not defined D1	1	Sec 270° =	B. 1 C1
Three times the sequence on any side of an equilateral triangle equal to four times the square on the:  The medians of equiangular triangles are proportional to their corresponding:  B. A Sides D. Vertex  B. Angle C. Point D. Altitude  Which mathematical expression is correct:  In an equilateral triangle ABC, then side BC is trisected at D then:  Sin 60° =  Acute angle is:  A. 1 B. 0  Acute angle is:  A Sides B. Oio C. 90° D. 120° D. 120° D. 120° D. 120° D. 120° D. 140° D. Medians D. Altitude  A Sides B. Diagonias C. Medians D. Altitude  11 The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  Diagonias C. Medians D. Altitude  A Sides B. Diagonias C. Medians D. Altitude  A Sides B. Angles C. Medians D. Vertex  13 Cot 45° =  A O B. 1 C. Not defined D1  Not defined D1  A O B. 1 C. Not defined D1	Three times the sequence on any side of an equilateral triangle equal to four times the square on the:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  A Sities B An O  A 1 B 0  A	2	Two triangles are similar if and only of their corresponding are equal:	B. Points C. Angles
Three times the sequence on any side of an equilateral triangle equal to four times the square on the:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  The number of the squares of its contains an equilateral triangle ABC, then side BC is trisected at D then:  A Sides B 0 B 0 B 0 B 0 B 0 B 0 B 0 B 0 B 0 B 0	Three times the sequence on any side of an equilateral triangle equal to four times the square on the:  The medians of equiangular triangles are proportional to their corresponding:  The medians of equiangular triangles are proportional to their corresponding:  Which mathematical expression is correct:  In an equilateral triangle ABC, then side BC is trisected at D then:  Sin 60° = A. 1 B. 0  A. 1 B. 0  Acute angle is:  The sum of the squares of sides of a rhombus is equal to the sum of the squares of its:  The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  A. Sides B. Diagonals C. Medians D. Altitude	3	Question Image	
The medians of equiangular triangles are proportional to their corresponding:  Which mathematical expression is correct:  In an equilateral triangle ABC, then side BC is trisected at D then:  Sin 60° = A.1 B. 0  A.1 B. 0  A.20° B. 60° C. 90° D. 120° D. 1	The medians of equiangular triangles are proportional to their corresponding:  B. Angle C. Point D. Altitude  Which mathematical expression is correct:  In an equilateral triangle ABC, then side BC is trisected at D then:  Sin 60° =  A. 1 B. 0  A. 80° B. 60° C. 90° D. 120°  A sute angle is:  The sum of the squares of sides of a rhombus is equal to the sum of the squares of its:  The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  A. Sides B. Diagonlas C. Medians D. Altitude  A. Sides B. Diagonlas C. Medians D. Altitude  A. Sides B. Diagonlas C. Medians D. Altitude  A. Sides B. Angles D. Altitude  A. Sides B. Angles D. Vertex  A. 1 B1 C. 0 D. Not defined D1	4		B. Altitude C. Side
In an equilateral triangle ABC, then side BC is trisected at D then:  8	In an equilateral triangle ABC, then side BC is trisected at D then:  8	5	The medians of equiangular triangles are proportional to their corresponding:	B. Angle C. Point
8 Sin 60° =  9 Acute angle is:  10 The sum of the squares of sides of a rhombus is equal to the sum of the squares of its:  11 The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  12 Question Image  A. 3 Sides B. Diagonias C. Medians D. Altitude  A. Sides B. Diagonias C. Medians D. Altitude  A. Sides B. Angles C. Squares D. Vertex  A. 1 B1 C. 0 D. Not defined D1  Tan 180° =  A. 0 B. 1 C. Not defined D1	Sin 60° =  Acute angle is:  A. 1 B. 0  A. 80° B. 60° C. 90° D. 120°  A Sides B. Diagonias C. Medians D. Attitude  12  Question image  A Sides B. Diagonias C. Medians D. Attitude  A Sides B. Angles C. Squares D. Vertex  A 1 B1 C. 0 D. Not defined D1	6	Which mathematical expression is correct:	
A cute angle is:  A cute angle	Acute angle is:  Acute angle a	7	In an equilateral triangle ABC, then side BC is trisected at D then:	
9 Acute angle is:  10 The sum of the squares of sides of a rhombus is equal to the sum of the squares of its:  11 The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  12 Question Image  A. Sides B. Diagonlas C. Medians D. Altitude  A. Sides B. Diagonlas C. Medians D. Altitude  A. Sides B. Angles C. Squares D. Vertex  A. 1  B1  C. 0  D. Not defined  A. 0  B. 1  C. Not defined  D1	Acute angle is:  B. 60° C. 90° D. 120°  The sum of the squares of sides of a rhombus is equal to the sum of the squares of its:  The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  A. Sides B. Diagonlas C. Medians D. Altitude  A. D. Not defined D. Not defined D1	8	Sin 60° =	
The sum of the squares of sides of a rhombus is equal to the sum of the squares of its:  C. Medians D. Altitude  11 The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  D. Altitude  A. Sides B. Diagonlas C. Medians D. Altitude  A. Sides B. Angles C. Squares D. Vertex  13 Cot 45° =  D. Vertex  A. 1 B1 C. 0 D. Not defined  A. 0 B. 1 C. Not defined D1	The sum of the squares of sides of a rhombus is equal to the sum of the squares of its:  C. Medians D. Altitude  A. Sides B. Diagonlas C. Medians D. Altitude  A. Sides B. Diagonlas C. Medians D. Altitude  Diagonlas C. Medians D. Altitude  A. Sides B. Diagonlas C. Medians D. Altitude  A. Sides B. Diagonlas C. Medians D. Altitude  C. Medians D. Altitude  12 Question Image  A. Sides B. Angles C. Squares D. Vertex  A. 1 B1 C. 0 D. Not defined  A. 0 B. 1 C. Not defined D1	9	Acute angle is:	B. 60° C. 90°
The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  C. Medians D. Altitude  A. Sides B. Angles C. Squares D. Vertex  Co. Squares D. Vertex  A. 1 B1 C. 0 D. Not defined  A. 0 B. 1 C. Not defined D1	The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:  C. Medians D. Altitude  A. Sides B. Angles C. Squares D. Vertex  C. Squares D. Vertex  A. 1 B1 C. 0 D. Not defined  A. 0 B. 1 C. Not defined D1	10	The sum of the squares of sides of a rhombus is equal to the sum of the squares of its:	B. Diagonlas C. Medians
12 Question Image  B. Angles C. Squares D. Vertex  A. 1 B1 C. 0 D. Not defined  A. 0 B. 1 C. Not defined D1	12 Question Image  B. Angles C. Squares D. Vertex  A. 1 B1 C. 0 D. Not defined  A. 0 B. 1 C. Not defined D1	11	The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:	B. Diagonlas C. Medians
13 Cot 45° =  B1 C. 0 D. Not defined  A. 0 B. 1 C. Not defined D1	13 Cot 45° =  B1 C. 0 D. Not defined  A. 0 B. 1 C. Not defined D1	12	Question Image	B. Angles C. Squares
14 Tan 180° =  B. 1 C. Not defined D1	14 Tan 180° = B. 1 C. Not defined D1	13	Cot 45° =	B1 C. 0
15 Question Image	15 Question Image	14	Tan 180° =	B. 1 C. Not defined
