

Business Statistics Icom Part 2 English Medium Chapter 2 Online Test

Sr	Questions	Answers Choice
1	Classification of data on the basis of difference in quantity is called	A. Spatial classification B. Temporal classification C. Qualitative classification D. Quantitative classification
2	The heading for different rows are called.	A. Rows captions B. Column captions C. Stubs D. Both a and c
3	Classification of data on the basis of characteristics or attributes like social status etc is called.	A. Spatial classification B. Temporal classification C. Qualitative classification D. Quantitative classification
4	The cumulative frequency polygon is also called.	A. Ogive B. Bar graph C. Rectangular graph D. Histogram
5	The smallest and the largest values of any given class of a frequency distribution are called.	A. Class interval B. Class limits C. Class width D. None of these
6	Histogram is a.	A. Bar graph of frequency distribution B. Line graph of frequency distribution C. Bar graph of time series.
7	The term bar means. a.	A. Thick wide line B. Thin wide line C. Thick narrow line
8	As a general rule, statisticians tend to use which of the following number of classes when arranging the data.	A. Between 5 and 20 B. Fewer than 5 C. Between 1 and 5 D. More than 20
9	In a table, foot note and source notes are.	A. Same B. Identical C. Different D. None of above
10	For a given class 34-36, the mid point will be.	A. 32 B. 33 C. 34 D. 35
11	The arrangement of sectors in a pie chart is.	A. Random B. Ascending order C. Clock wise D. Anti clock wise
12	To show no entry in a cell of the table dashes and are used.	A. ??? B. Four Star C. dots D. Zeroes
13	Median is graphically obtained by using.	A. Histogram B. Ogive C. Frequency curve D. None of these
14	Total area of the histogram represents the total.	A. Frequency B. Class marks C. Classes D. Class limits
15	The difference between the upper and the lower class boundaries of a class is known as.	A. Class marks B. Class limit C. Class interval D. Range

16 The process of systematic arrangement of data into rows and columns is called.
A. Presentation
B. Classification
C. **Tabulation**
D. Distribution

17 A bio model frequency curve consists of.
A. Two maxima
B. One maxima
C. Three maxima
D. No maxima

18 A graph which is used to show the maximum and minimum values of a variable is called.
A. Line graph
B. Bar graph
C. **Range graph**
D. None of above

19 Which of the following is written at the bottom of the table.
A. Foot note
B. Source note
C. Prefatory note
D. **Both a and b**

20 In frequency curve if the longer tail occurs to the right, the curve is called.
A. **Positively skewed**
B. symmetrical
C. Negative skewed
D. identical
