

Earth System Quiz

1 The distance between the earth and the sun is smallest in the month of: 2 Days and Nights are caused by A Revolution of the earth around the sun is smallest in the month of: A Revolution of the earth around the sun is Robustion of the earth around the sun is Robustion of the earth or its axis in None of these A Circular is Elliptical in Circular is Elliptical in Circular is Elliptical in Circular is Elliptical in None of these The time required for moon light to reach earth: A Circular is Elliptical in Circular is Elliptical in None of these A Seconds B O Seconds C I regular D None of these A seconds B O Seconds C 2 seconds D 1 3 seconds D 1 3 seconds D 1 3 seconds E Repler C Eratosthenes D Galelio A Solar heat B Solar radiation D Thermal radiation D Thermal radiation D Thermal radiation D West to East D West to East D West to East D West to East D The fixed path along which the earth revolves around the sun is called D The circular is the earth sorbit is the earth sor	Sr	Questions	Answers Choice
2 Days and Nights are caused by Scholar action of the earth on its axis C. Inclination of the earth's axis D. None of these 3 The orbit along which the earth revolves is: 4 The time required for moon light to reach earth: 5 The size of earth was first measured by: 5 The size of earth was first measured by: 6 Heat received by earth from the sun is known as: 7 The earth rotates around its axis from: 7 The fixed path along which the earth revolves around the sun is called. 8 The fixed path along which the earth revolves around the sun is called. 9 Which country is called: the land of rising sun"? 10 The mean radius of the earth is approximately: 11 What is the maximum length of a day on the poles?	1	The distance between the earth and the sun is smallest in the month of:	B. July C. August
The orbit along which the earth revolves is: 1. B. Elliptical C. Irregular D. None of these 2. Irregular D. None of these 3. 3 seconds B. 0.5 seconds B. 0.5 seconds D. 1.3 seconds D. 1.3 seconds D. 1.3 seconds 5. The size of earth was first measured by: 6. Heat received by earth from the sun is known as: 7. The earth rotates around its axis from: 7. The earth rotates around its axis from: 8. The fixed path along which the earth revolves around the sun is called D. The real path of the earth sorbit B. The ecliptic plane C. The celestial sphere D. The celestial sphere D	2	Days and Nights are caused by	sun B. Rotation of the earth on its axis C. Inclination of the earth's axis
The time required for moon light to reach earth: B. 0.5 seconds C. 2 seconds D. 1.3 seconds A. Isaac Newton B. Kepler C. Eratosthenes D. Galelio A. Solar heat B. Solar radiation C. Insolation D. Thermal radiation C. Insolation D. Thermal radiation A. North to South B. East to West C. North to East D. West to East D. West to East D. West to East A. The earth's orbit B. The fixed path along which the earth revolves around the sun is called D. The cellottic plane C. The cellottic plane C. The cellottic path D. The cellottic path D. The recipitic path D. The mean radius of the earth is approximately: A. 2 years B. 6 months C. 8 months C. 7 months	3	The orbit along which the earth revolves is:	B. Elliptical C. Irregular
5 The size of earth was first measured by: 6 Heat received by earth from the sun is known as: 7 The earth rotates around its axis from: 8 The fixed path along which the earth revolves around the sun is called 9 Which country is called :the land of rising sun"? 10 The mean radius of the earth is approximately: 11 What is the maximum length of a day on the poles? 8 Respler C. Eratosthenes D. Galelio A. Solar heat B. Solar radiation C. Insolation D. Thermal radiation A. North to South B. East to West C. North to East D. West to East D. West to East A. The earth's orbit B. The ecliptic plane C. The celestial sphere D. The ecliptic path A. Italy B. Japan C. Canada D. United Kingdom A. 2800 kms B. 3000 kms C. 7600 kms D. 6400 kms D. 6400 kms C. 8 months	4	The time required for moon light to reach earth:	B. 0.5 seconds C. 2 seconds
Heat received by earth from the sun is known as: B. Solar radiation C. Insolation D. Thermal radiation 7 The earth rotates around its axis from: 8 The fixed path along which the earth revolves around the sun is called C. North to East D. West to East 8 The fixed path along which the earth revolves around the sun is called C. The celestial sphere D. The ecliptic plane C. The celestial sphere D. The ecliptic path 9 Which country is called :the land of rising sun"? A. Italy B. Japan C. Canada D. United Kingdom 10 The mean radius of the earth is approximately: A. 2800 kms B. 3000 kms C. 7600 kms D. 6400 kms D. 6400 kms A. 2 years B. 6 months C. 8 months C. 8 months	5	The size of earth was first measured by:	B. Kepler C. Eratosthenes
The earth rotates around its axis from: B. East to West C. North to East D. West to East A. The earth's orbit B. The ecliptic plane C. The celestial sphere D. The ecliptic path Which country is called :the land of rising sun"? A. Italy B. Japan C. Canada D. United Kingdom The mean radius of the earth is approximately: A. 2800 kms B. 3000 kms C. 7600 kms D. 6400 kms A. 2 years B. 6 months C. 8 months C. 8 months	6	Heat received by earth from the sun is known as:	B. Solar radiationC. Insolation
The fixed path along which the earth revolves around the sun is called	7	The earth rotates around its axis from:	B. East to West C. North to East
9 Which country is called :the land of rising sun"? C. Canada D. United Kingdom A. 2800 kms B. 3000 kms C. 7600 kms D. 6400 kms A. 2 years B. 6 months C. 8 months C. 8 months	8	The fixed path along which the earth revolves around the sun is called	B. The ecliptic plane C. The celestial sphere
The mean radius of the earth is approximately: B. 3000 kms C. 7600 kms D. 6400 kms A. 2 years B. 6 months C. 8 months	9	Which country is called :the land of rising sun"?	B. Japan C. Canada
11 What is the maximum length of a day on the poles? B. 6 months C. 8 months	10	The mean radius of the earth is approximately:	B. 3000 kms C. 7600 kms
	11	What is the maximum length of a day on the poles?	B. 6 months C. 8 months
