

ECAT Pre Engineering MCQ's Test For English Full Book

Sr	Questions	Answers Choice
1	<p>Have you ever wondered what keeps a hot air balloon flying? The same principal that keeps food frozen in the open chest freezers at the grocery store allows hot air balloons to fly. It's very basic principle: Hot air rises and cold air falls. So while the super-cooled air in the grocery store freezer settles down around the food , the hot air in a hot air in a hot air balloon pushes up, keeping the balloon floating above the ground. In order to understand more about how this principal works in hot air balloons, it helps to know more about hot air balloons themselves.<div>A hot air balloon has three major parts: the basket, the burner, and the envelope. The basket is where passengers ride. The basket is usually made of wicker. This ensures that it will be comfortable and add little extra weight. The burner is positioned above the passenger's heads and produced a huge flame to heat the air inside the envelope. The envelope is the colorful fabric balloon that holds the hot air. When the air inside the envelop is heated, the balloon rises.</div><div>The pilot can control the up-and-down movements of the hot air balloon by regulating the heat in the envelope. To ascend, the pilot heats the air in the envelope. When the pilot is ready to land, the air in the balloon is allowed to cool and the balloon becomes heavier than air. This make the balloon descend.</div><div>Before the balloon is launched, the pilot knows which way the wind is blowing. This means that she has a general idea about which wau the balloon will go. But, sometimes the pilot can actually control the direction that the balloon flies while in flight. This is because the air above the ground is sectioned into layers in which the direction of the wind may be different. So even though the pilot can't steer the balloon, she can fly higher or lower into a different layer of air. Some days the difference between the directions of the wind between layers is negligible. But other days the difference is so strong that it can actually push the balloon in a completely different directionIf the hot air balloon pilot wants to change directions during flight, what might he or she do to accomplish this?</p>	<p>A. head toward a mountain peak B. wait for it to rain C. fly into a cloud D. fly higher</p>
2	<p>Debauch</p> <p>(Complete the sentence with suitable words)</p>	<p>A. Comment B. Connive C. Edify D. Malinger</p>
3	<p>Some of the sculptures formerly _____ the Hindu artist are now thought to have been created by one of his Muslim students</p>	<p>A. Denied by B. Attributed to C. Adapted from D. Submitted to</p>
4	<p>Nymph</p>	<p>A. Clinch B. Flinch C. Airy D. Fairy</p>
5	<p>Prince : Exorbitant</p>	<p>A. Listening : Boredom B. Motion : Distance C. Fire : Overshoot D. Fatigue : Exhaustion</p>
6	<p>He is taking some _____ this semester</p>	<p>A. Histories class B. History classes C. History class D. None</p>
7	<p>When we are young, we learn that tigers and sharks are dangerous animals. We might be scared of them because they are big and powerful. As we get older, however, we learn that sometimes the most dangerous animals are also the smallest animals. In fact, the animal that kills the most people every year is one that you have probably killed yourself many times: the mosquito.</p> <p>While it may seem that all mosquitoes are biters, this is not actually the case. Male mosquitoes eat plant nectar. One the other hand, female mosquitoes feed on animal blood. They need this blood to live and produce eggs. When a female mosquito bites a human being, it transmits a small amount of saliva into the blood. The saliva may or may not contain a deadly disease. The result of the bite can be as minor as an itchy bump or as serious as death.</p> <p>Because a mosquito can bite many people in the course of its life, it can carry diseases from one person to another very easily. Two of the most deadly diseases carried by mosquitoes are malaria and yellow fever. More than 700 million people become sick from these diseases every year. At least 2 million of these people will die from these diseases.</p> <p>Many scientists are working on safer and better ways to kill mosquitoes, but so far,</p>	<p>A. Terrible B. Mediocre C. Good D. Excellent</p>

there is no sure way to protect everyone in the world from their deadly bites. Mosquito nests can be placed over beds to protect people against being bitten. These nets help people stay safe at night, but they do not kill any mosquitoes. Mosquitoes have many natural enemies like bats, birds, dragonflies, and certain kinds of fish. Bringing more of these animals into places where mosquitoes live might help to cut down the amount of mosquitoes in that area. This is a natural solution, but it does not always work very well. Mosquitoes can also be killed with poisons or sprays. Even though these sprays kill mosquitoes, they may also harm other plants or animals.

Although mosquitoes may not seem as scary as larger, more powerful animals, they are far more dangerous to human beings. But things are changing. It is highly likely that one day scientists will find a way to keep everyone safe from mosquitoes and the diseases they carry.

Based on information in paragraph 3, it can be understood that if you get sick with malaria or yellow fever, your chances of survival are

8	Diaphanous	A. Transitive B. Secular C. Schematic D. Opaque
9	Aghast	A. horrified B. pleased C. happy D. downcast
10	A medicine that kills germs:	A. Pesticide B. Homicide C. Regicide D. Germicide
11	(Complete the sentence with suitable words) The counselor decided _____ the application	A. To accept B. Accepting C. Accepts D. To accepts
12	The murder of brother:	A. Genocide B. Fratricide C. Sororicide D. Suicide
13	Choose Relative Pair Of Word Frown : GROAN	A. Stroll : amble B. Clown : crone C. Strained : Wit D. Grin : Guffaw
14	A turncoat:	A. One who changes one's opinion or party B. A wet coat C. A poor man D. Man of principles
15	Choose correct word or phrase that is most similar to the word given BANAL	A. Philosophical B. Original C. Dramatic D. Headless E. Commonplace
16	Identify Error <u>I suppose at that age something</u> you say to <u>anybody is all right.</u> No error	A. A B. B C. C D. D E. E
17	Choose correct word or phrase that is most opposite of the word given. Loutish	A. Dejected B. Vast C. Urbane D. Pitiful E. Silent
18	Novice	A. Deletion B. Beatitude C. Volley D. Veteran
19	Choose correct word or phrase that is most opposite of the word given. Auspicious	A. Pictorial B. Ill-starred C. trusting D. Blunt E. Scions
20	The price of the house is _____	A. Expensivier than B. More expensive

20

This apartment is _____ that one

- C. More expensive than
- D. Expensive than
