

ECAT Pre Engineering MCQ's Test For English Full Book

Sr	Questions	Answers Choice
1	Ameliorate	A. solidify B. roughen C. aggravate D. progress
2	Identify Error <u>Besides being</u> an outstanding student he is <u>also</u> a leader <u>in college</u> . <u>No error</u>	A. A B. B C. C D. D E. E
3	Choose Relative Pair Of Word Parrot : APE	A. Curve: are B. Wood: Tree C. Crane: boar D. Alarm: fire
4	BUTCHER : MEAT	A. Maid : Chores B. Teacher : Knowledge C. Librarian : Books D. Baker : Bread
5	(Complete the sentence with suitable words) Wheat production in Pakistan	A. Have taken slumps and rises in recent years B. Has been rather erratic recently C. Has been erratically lately D. Are going up and down all the patients
6	Q.5 Recent advances in science and technology have made it possible for geneticists to find out abnormalities in the unborn foetus and take remedial action to rectify some defects which would otherwise prove to be fatal to the child. Though genetic engineering is still at its infancy, scientist can now predict with greater accuracy a genetic disorder it is not yet an exact science since they are not in a position to predict when exactly a genetic disorder will set in. While they have not yet been able to change the genetic order of the gene in germs they are optimistic and are holding out that in the near future they might be successful in achieving this feat they have however acquired the ability in manipulating tissue cells. However genetic mis-information can sometimes be damaging for it may adversely affect people psychologically. Genetic information may lead to tendency to brand some people as inferiors. Genetic information can therefore be abused and its application in deciding the sex of the foetus and its subsequent abortion is now hotly debated on ethical lines but on this issue geneticists cannot be squarely blamed though this charge has often been leveled at them it is mainly a societal problem. At present genetic engineering is a costly process of detecting disorders but scientists hope to reduce the costs when technology becomes more advanced this is why much progress in this area has been possible in scientifically advanced and rich countries like the U.S.A, U.K and Japan it remains to be seen if in the future this science will lead to the development of a race of supermen or will be able to obliterate disease from this world. c. Which of the following is true regarding the reasons for progress in genetic engineering	A. It has become popular to abort female fetuses B. Human beings are extremely interested in heredity C. Economically sound and scientifically advanced countries can provide the infrastructure for such research D. Poor countries desperately need genetic information
7	Applause	A. to make noise B. acclaim C. abuse D. prosper
8	Choose correct word or phrase that is most opposite of the word given. Horrible	A. Sabotage B. Agreeable C. Dogmatic D. Repulsive E. Appealing
9	(Complete the sentence with suitable words) Parveen got Mariam _____ her paper	A. Typed B. Type C. To type

Although cynics may like to see the government's policy for women in terms of the party's internal power struggles, it will nevertheless be churlish to deny that it represents a pioneering effort aimed at bringing about sweeping social reforms. In its language, scope and strategies, the policy document displays a degree of understanding of women's needs that is uncommon in government pronouncements. This is due in large part to the participation process that preceded its formulation.

THIS is due in large part to the participatory process that marked its formulation, seeking the active involvement right from the start of women's groups, academic institutions and non-government organizations with grass roots experience. The result is not just a lofty declaration of principles but a blueprint for a practical program of action. The policy delineates a series of concrete measures to accord women a decision-making role in the political domain and greater control over their economic status. Of especially far-reaching impact are the devolution of control of economic infrastructure to women, notably at the gram panchayat level, and the amendment proposed in the Act of 1956 to give women comparcenary rights.

- 10 And enlightened aspect of the policy is its recognition that actual change in the status of women cannot be brought about by the mere enactment of socially progressive legislation. Accordingly, it focuses on reorienting development programs and sensitizing administrations to address specific situations as, for instance, the growing number of households headed by women, which is a consequence of rural-urban migration. The proposal to create an equal-opportunity police force and give women greater control of police stations is an acknowledgement of the biases and callousness displayed by the generally all-male law-enforcement authorities in case of dowry and domestic violence. While the mere enunciation of such a policy has the salutary effect of sensitizing the administration as a whole, it does not make the task of its implementation any easier. This is because the changes it envisages in the political and economic status of woman strike at the root of power structures in society and the basis of man-woman relationship. There is also the danger that reservation for women in public life, while necessary for their greater visibility, could lapse into tokenism or become a tool in the hands of vote seeking politicians. Much will depend on the dissemination of the policy and the ability of elected representatives and government agencies to reorder their priorities.

Which of the following can be inferred from the passage?

- A. Most of the government's policies are formulated through participatory process
B. There is need for stricter legislation
C. The policy recommends reservation for women
D. Domestic violence is on the rise

- 11 **Choose correct word or phrase that is most similar to the word given**
MURAL
A. Writing
B. Music
C. A painting on wall
D. Ancient
E. Birth

- 12 **Choose correct word or phrase that is most opposite of the word given.**
Haphazard
A. Systematic
B. Ecstasy
C. Linear
D. Follower
E. Dangerous

- 13 **(Complete the sentence with suitable words)**
The teacher said to the students There will be no class work today
A. The teacher told the students that there would be no class work that day
B. The teacher told the students that there could be no class work that day
C. The teacher told the students that there is no class work that day
D. The teacher told the students that there will be no class work that day

- 14 **Choose correct word or phrase that is most opposite of the word given.**
Oblivion
A. Remembrance
B. Bounced
C. Slaughter
D. Sentimentality
E. Whirlpool

- 15 **Choose correct word or phrase that is most opposite of the word given.**
Becalmed
A. Generous
B. Tranquil
C. In motion
D. Simulated

- 16 **Identify Error**
A person who lived to be more than thirty years of age is indeed fortunate. No error
A. A
B. B
C. C
D. D
E. E

- 17 Q.5 Recent advances in science and technology have made it possible for geneticists to find out abnormalities in the unborn foetus and take remedial action to rectify some defects which would otherwise prove to be fatal to the child. Though genetic engineering is still at its infancy, scientist can now predict with greater accuracy a genetic disorder. It is not yet an exact science since they are not in a position to predict when exactly a genetic disorder will set in. While they have not yet been able to change the genetic order of the gene in germs, they are optimistic and are holding out that in the near future they might be successful in achieving this feat. They have, however, acquired the ability in manipulating tissue cells. However, genetic mis-information can sometimes be damaging for it may adversely affect people psychologically. Genetic information may lead to tendency to brand some people as inferiors. Genetic information can therefore be abused and its application in deciding the sex of the foetus and its subsequent abortion is now hotly debated on ethical lines but on this issue geneticists cannot be squarely blamed though this charge has often been leveled at them. It is mainly a societal problem. At present genetic engineering is a costly process of detecting disorders but scientists hope to reduce the costs when technology becomes more

- A. Catching
B. Expounding
C. Sustaining
D. Restraining

detecting disorders but scientists hope to reduce the costs when technology becomes more advanced this is why much progress in this area has been Possible in scientifically advanced and rich countries like the U.S.A U.K and japan it remains to be seen if in the future this science will lead to the development of a race of supermen on will be able to obliterate disease from this world.

a. Which of the following is the same in meaning as the phrase holding out as used in the passage

18	<p>Herschel was a Great Dane, which was a big dog. He was actually a puppy, but he was big enough that he looked like a full-size dog. He was bigger than Todd, his owner. The problem with Herschel was that he wasn't housebroken yet. He was six months old, but his original owner had kept him on a porch, where he could go to the bathroom whenever he wanted. That owner hadn't had a lot of time to take care of a dog, but he'd wanted one anyway. When he'd moved to another state for work, he'd given up his untrained puppy. It was sad story, but it looked like it might have a good end. Todd loved dogs, and he liked to spend time with them. He liked to train them, so he'd adopted Herschel. If it was going to work out, it would take lots of patience, love, and training. So, Todd woke up early every day. He walked Herschel immediately. They went for a long walk so Herschel could empty his bladder and use the bathroom. While Todd was at school, his mother let the dog out in the back yard every hour. When he returned home, Todd walked Herschel again. He'd put in another walk before they went to bed, too. With enough opportunities to go to the bathroom outside. Herschel didn't need to go inside. Still, he had accidents. He wasn't used to going only outside. It took a lot of patience to clean up his messes. but Todd did it anyway. Dedication was needed with an animal. They walked an walked every day, and Herschel started walking better on a leash. He respected his owner. They got along well together, and there were less and less messes inside. After several weeks, Herschel made it through a day without any trouble. Todd gave Herschel a hug and a special treat. Then, they went for another walk. It was great exercise for both of them, and it gave them time together. Todd hoped they would have many years together. His new friend meant a lot to him.</p> <p>Question</p> <p>How does Todd celebrate Herschel's first day without an accident?</p>	<p>A. with a new collar</p> <p>B. with a good brush and nail clipping</p> <p>C. with a trip to the vet</p> <p>D. with another walk</p>
19	<p>Always : Never</p>	<p>A. Often : Rarely</p> <p>B. Frequently : Occasionally</p> <p>C. Constantly : Frequently</p> <p>D. Intermittently : Causally</p>
20	<p>Choose correct word or phrase that is most similar to the word given</p> <p>NYMPH</p>	<p>A. Clinch</p> <p>B. Flinch</p> <p>C. Airy</p> <p>D. Fairy</p> <p>E. Cheery</p>
