

ECAT Pre Engineering MCQ's Test For English Full Book			
Sr	Questions	Answers Choice	
1	To deprive a thing of its holy characters	A. Desecrate B. Blasphemy C. Consecrate D. Consecrate D. Sacrilege	
2	When we are young, we learn that tigers and sharks are dangerous animals. We might be scared of them because they are big and powerful. As we get older, however, we learn that sometimes the most dangerous animals are also the smallest animals. In fact, the animal that kills the most people every year is one that you have probably killed yourself many times: the mosquito. While it may seem that all mosquitoes are biters, this is not actually the case. Male mosquitoes eat plant nectar. One the other hand, female mosquitoes feed on animal blood. They need this blood to live and produce eggs. When a female mosquito bites a human being, it transmits a small amount of saliva into the blood. The saliva may or may not contain a deadly disease. The result of the bite can be as minor as an itchy bump or as serious as death. Because a mosquito can bite many people in the course of its life, it can carry diseases from one person to another very easily. Two of the most deadly diseases carried by mosquitoes are malaria and yellow fever. More than 700 million people become sick from these diseases every year. At least 2 million of these people will die from these diseases. Many scientists are working on safer and better ways to kill mosquitoes, but so far, there is no sure way to protect everyone in the world from their deadly bites. Mosquito nests can be placed over beds to protect people against being bitten. These nets help people stay safe at night, but they do not kill any mosquitoes. Mosquitoes have many natural enemies like bats, birds, dragonflies, and certain kinds of fish. Bringing more of these animals into places where mosquitoes live might help to cut down the amount of mosquitoes in that area. This is a natural solution, but is does not always work very well. Mosquitoes, they may also harm	A. Despondent, meaning hopeless or dejected B. Exasperated, meaning extremely irritated or annoyed C. Equivocal, meaning doubtful or uncertain D. Optimistic, meaning hopeful or taking a favorable view	

Although mosquitoes may not seem as scary as larger, more powerful animals, they are far more dangerous to human beings. But things are changing. It is highly likely that one day scientists will find a way to keep everyone safe from mosquitoes and the diseases they carry.

Which of the following words best described the author's overall attitude towards the prospect of solving the mosquito problem?

3 CREST: WAVE

other plants or animals.

A. Climax : Action
B. Elegy : Memory
C. Example : Paradigm
D. Milestone : Distance

4 If a natural energy resources becomes, unavailable scientists engineers and technologists

A. Become totally helpless and cannot make it available

B. Look for alternate resources to compensate the loss
C. All the machines using this

resource become useless D. All of the above

5	Pilfer : Rob	B. Taste : Eat C. Affirm : Intimate D. Innuendo : Desperado
6	Abasement	A. subscription B. taxation C. humility D. humiliation
7	Choose correct word or phrase that is most opposite of the word given. Atheist	A. Hypnotic B. Bane C. Believer D. Theorist E. Alarmist
8	Murtaza scored in his last entrytest	A. The least points B. A least points C. The fewest points D. The fewer points
9	Choose correct word or phrase that is most opposite of the word given. Paltry	A. Stallion B. mastery C. Significant D. Absent E. Enmity
10	If the application for a new IT job in US more on the interview preparation, the results of their efforts would have bee quite different	A. Have focused B. Had focused C. Focused D. Were focused
11	Adamant	A. genteel B. lovely C. harsh D. ugly
12	The accused having make any statement.	A. Refused B. denied C. rejected D. declaimed
13	Where does chocolate come from? Believe it or not, it grows on trees. Not as a sweet chocolate candy bar wrapped in foil, but as a cocoa bean. These cocoa beans grow on a cacao tree, which is found in tropical areas such as Central and South America. The fruit of these are called pods, and they are long and hard. Inside the pods is a soft, white pulp that surrounds the thirty or so seeds. These seeds are what we call cocoa beans. They are very hard and bitter to the taste. To make chocolate, people start by carefully taking the beans out of the pods, still covered in the white pulp, and leaving them in a bucket. The bucket is often covered with banana leaves and left for anywhere form a few days to a few weeks. This process is called fermenting. Then he beans are left to dry in the sun. Fermenting and drying the beans makes them less bitter. Then the beans are shipped to a factory to be turned into chocolate. At the factory, beans are roasted in ovens to bring out their flavor. After roasting, the outer covering of the bean is removed. The inner bean is then crushed to form a paste known as chocolate liquor. From this paste, people can either make cocoa powder or the chocolate we buy in stores. To make cocoa powder, the paste is crushed and pressed repeatedly to remove the fat, leaving behind only a dry, ground powder. To make chocolate, people need to add other ingredients to the paste such as milk, sugar, and cocoa butter. They then mix and heat the concoction several times to create a substance we would recognize as chocolate. It may even have fruit, nuts, or candy added to it before it is molded into a shape. Considering all that must happen t turn a bitter cocoa bean into a chocolate bar, a dollar seems like a small price to pay for such a delicious sweet treat. Question: According to the passage, which of these items is needed to make the chocolate that is available in stores?	A. fruit B. nuts C. candy D. sugar
14	GUILE: INGENUOUS	A. appetite : voracious B. chivalry : natural C. prudence : demanding D. courage : timorous
	The hammer may be oldest tool we have record of. Stone hammers-some of the oldest human artifacts ever discovered-date back as early as 2,600,000 BCE. Not only is the hammer the oldest tool, but it is also the greatest. What make the hammer so great is its simplicity, power, and usefulness. The structure of the hammer is relatively simple-a fact largely responsible for its early invention and widespread distribution across cultures and geographic regions. The hammer is composed of two main parts: a handle and a head. The	A. Jean-Micheal finds a prize at the bottom of a cereal box. Once he digs

The hammer may be oldest tool we have record of. Stone hammers-some of the oldest human artifacts ever discovered-date back as early as 2,600,000 BCE. Not only is the hammer the oldest tool, but it is also the greatest. What make the hammer so great is its simplicity, power, and usefulness. The structure of the hammer is relatively simple-a fact largely responsible for its early invention and widespread distribution across cultures and geographic regions. The hammer is composed of two main parts: a handle and a head. The handle is used to swing the hammer. The head is used to hit other objects. While the hammer is a very simple tool, it is still able to generate tremendous power. This power results from two factors: the weight of the head, and the speed at which the hammer is swung. Every hammer (though some more than other) has a large distribution of weight at the head. When a hammer is swung, this weight pivots about the hand, which acts as a fulcrum. The handle carries the weight at a distance, acting as a lever arm, so a longer handle means increased speed. The weight of the head together with the speed generated by the lever arm is what gives the hammer so much power. The heavier the head and the faster it is swung, the more power a hammer produces. In addition to the hammer's great power, it also has an exceptionally wide range of useful applications. The purpose of the hammer -- to hit-- is a universal action that can accomplish many tasks. Let's start with the

A. Jean-Micheal finds a prize at the bottom of a cereal box. Once he digs it out, he sees that it is a cheap plastic toy car. After playing with it for a few minutes, he throws it in the trash

A. Doctor: Treatment

B. Veterans agree that there are many songs that accurately depict the struggles faced by U.S. soldiers during the Vietnam War

C. While the buildings that line the streets in downtown Manhattan are very impressive, what visitors ten to

obvious: a hammer can be made to pound nails. But a hammer has many other uses as well. It can break apart hard objects such as brick or concrete. It can bend and shape metal or steel. It can gently tap objects to make small adjustments. It can be used to make sculpture or pottery. It can be used in the hot, harsh business of blacksmithing as well as in delicate operations like crafting jewelry. In times of desperation, it can even be used as a weapon. The hammer truly is a great tool. It is simple, powerful, and useful. A quintessential symbol of labor, the hammer has come to represent hard work and embody the spirit of human industry.

Question:

As used in the final paragraph, which of the following describes something quintessential?

remember most about New York City are the signature yellow taxi cabs that appear nearly everywhere

D. During the first three months of its life, our newborn baby cried at night. It was only after we implemented a strict routine of feeding, sleeping, and activity time that we finally able to enjoy a soundless night

16	Vanity	A. Self-sacrifice B. Mood C. Weariness D. Modesty
17	The trainee said to the manager, "I am not supposed to do like this."	A. The trainee told the manager that I was not allowed to do like that B. The trainee told the manager that he is not allowed to do like that C. The trainee told the manager that he was not allowed to do like that D. The trainee told the manager that he had not allowed to do like that
18	Superficial	A. Underdone B. Digital C. Deficient D. Profound
19	Identify Error Besides being an outstanding student he is also a leader in college. No error	A. A B. B C. C D. D E. E

Nepal, a small, mountainous country tucked between India and China, may seem completely foreign to many Americans. Cows milk down busy streets unharmed, 24 different languages are spoken, and people eat two meals of rice and lentils every day. Nepali holidays, many of which are related to the Hindu religion. can seem especially bizarre to Americans unfamiliar with the culture. However, if we look beyond how others celebrate to consider the things they are celebrating, we find surprising similarities to our own culture. The biggest holiday in Nepal is Dashain, a ten-day festival for the Hindu goddess Durga that takes place in September or October. According to Hindu beliefs, Durga defeated the evil demons of the world. To thank the goddess, people visit temples in her honor and sacrifice goats or sheep as offerings. Throughout the year, most Nepalis do not eat much meat because it is expensive, but Dashain is a time to enjoy meat every day. Children fly colorful, homemade kites during Dashain. People also construct enormous bamboo swings on street corners and in parks. Every evening people gather at these swings and take turns swinging. Nepalis is a time for people to eat good food, relax and enjoy themselves. Aside from eating and enjoying themselves, during Dashain people also receive blessings from their elders. Schools and offices shut down so people can travel to be with their families. Reuniting with family reminds people of the importance of kindness, respect, and forgiveness. People also clean and decorate their homes for Dashain. And, like many holidays in the United States, it is a time for shopping. Children and adults alike get new clothes for the occasion. People express appreciation for all that they have, while looking forward to good fortune and peace in the year to come. During American holidays, people may not sacrifice goats or soar on bamboo swings, but we do often travel to be with family members and take time off work or school to relax. No matter how we celebrate, many people around the world spend their holidays honoring family, reflecting on their blessings, and hoping for good fortune in the future.

A. ask for blessings from their elders during holidays

B. agree that holidays reveal a lot about a culture

C. believe that holidays must be celebrated

D. think of holidays as a time to spend with their families

Question:

The author suggests that although people in different cultures celebrate holidays differently, one similarity is that many people
