ECAT Pre Engineering MCQ's Test For English Full Book

Sr	Questions	Answers Choice
1	Appease	A. sympathise B. irritate C. peaceful D. apart
2	Karachi is _____ city in Pakistan	A. Larger than any other B. larger than any C. More large than any other D. Large than any other
3	Affectation	A. pretense B. reality C. standing D. adverse effect
4	You must attend ___ the lecture	A. on B. with C. in D. to
5	Mendicant : Begging	A. Coup : Thunder B. Proponent : Abstained C. Player : Chess D. Charlatan : Deception
6	The corporation executives have decided and _____ many inefficient workers	A. They have fired B. Fire C. They fired D. Fired
7	Q.5 Recent advances is science and technology have made it possible for geneticists to find out abnormalities in the unborn foetus and take remedial action to rectify some defects which would otherwise prove to be fatal to the child Though genetic engineering is still at its infancy.scientist can now predict with greater accuracy a genetic disorder it is not yet an exact science since they are not in a position to predict when exactly a genetic disorder will set in While they have not yet been able to change the genetic order of the gene in germs they are optimistic and are holding out that in the near future they might be successful in achieving this feat they have however acquired the ability in manipulating tissue cells However genetic mis-information can sometimes be damaging for it may adversely affect people psychologically Genetic information may lead to tendency to brand some people as inferiors Genetic information can therefore be abused and its application in deciding the sex of the foetus and its subsequent abortion is now hotly debated on ethical lines but on this issue geneticists cannot be squarely blamed though this charge has often been leveled at them it is mainly a societal problem At present genetic engineering is a costly process of detecting disorders but scientists hope to reduce the costs when technology becomes more advanced this is why much progress in this area has been Possible in scientifically advanced and rich countries like the U.S.A U.K and japan it remains to be seen if in the future this science will lead to the development of a race of supermen on will be able to obliterate disease from this world. i. In the passage abused means	A. Insulted B. Talked about C. Killed D. Misused
8	Siesta : Nap	A. Lariat : Rope B. Farm : Plantation C. Sauerkraut : Cabbage D. Coin : Rug
9	Yellowstone National Park is the U.S. States of Wyoming, Idaho and Montana. It became the first National Park in 1872. There are geysers and hot springs at Yellowstone. There are also many animals at Yellowstone. There are elk, bison, sheep, grizzly, black bears, moose, coyotes, and more. More than 3 million people visit Yellowstone National Park year. During the winter, visitors can ski or go snowmobiling there. There are also snow coaches that give tours. Visitors can see ***steam*** (vapor water) come from the geysers. During other seasons, visitors can go boating or fishing. People can ride horses there. There are nature trails and tours. Most visitors want to see Old Faithful, a very ***predictable*** geyser at Yellowstone Visitors can check a schedule to see the exact time that Old Faithful is going to erupt. There are many other geysers and boiling springs in the area. Great Fountain Geyser erupts every 11 hours. Excelsior Geyser produces 4,000 gallons of ***boiling*** water each minute! Boiling water is 100 degrees Celsius, or	A. People enjoy B. People talk about C. People know in advance D. People pay for in advance

	212 degrees Fahrenheit – that's very hot! People also like to see the Grand Prismatic Spring. It is the largest hot spring in the park. It has many beautiful colors. The beautiful colors are caused by ***bacteria*** in the water. These are forms of life that have only one cell. Different bacteria live in different water ***temperatures.*** Visiting Yellowstone National Park can be a week – long vacation or more. It is beautiful and there are activities for everyone. Something predict table is something	
10	**Identify Error** Let us have dinner together sometimes next week. No error	A. A B. B C. C D. D E. E
11	**(Complete the sentence with suitable words)** The author monotonously numerates the_____ points of scientific development while omitting the details that might the reader interest	A. Week sell to B. Trivial boost C. Stylistic irritute D. Essential limit
12	What do you do with your orange peels and corn cobs after you are done eating? Most people throw them in the trash can. But food leftovers do not have to go into the trash. They are biodegradable, which means that they can be broken down by bacteria into natural materials.People who like to garden often put their fruit and vegetable scraps in a special place known as a compost pile.A compost pile is a spot outdoors where food waste can break down into compost, which gardeners use. This process takes several months. Once the compost is created, people spread this mixture in their gardens to add nutrients to the soil. The compost in the soil helps new plants grow in the garden. How do you take care of a compost pile? It needs air, water,and heat. Bacteria and other microorganisms break down the food waste into more basic elements like water and carbon dioxide. This process requires oxygen, so people use a shovel to turn compost regularly and help air reach all parts of the pile. The pile cannot dry out, so it could be covered to keep moisture in. Finally, heat speeds up the process. This means a compost pile should be in the sun for at least part of the day. Food leftovers are not the only things that turn into compost. You can also add yard waste like grass clippings, dried leaves, and straw. In fact, you should add these things to create a healthy balance in your compost. But do no add any weeds to your compost pile unless you want to grow weeds in your garden. Sometimes seeds are left behind in the compost. This can be a welcome surprise if you find a tomato plant sprouting where you had not planted one. The tomato seed was hiding in the compost, waiting to begin a new life in the garden. Question: The author apparently believes that a tomato plant	A. is not a weed B. should not go in a compost pile C. is the best thing a gardener can grow D. requires compost to grow
13	WET	A. Parched B. Tempered C. Humid D. Soak
14	Amnesty:	A. Pardon B. Penalty C. Justice D. Release
15	Capture	A. Confined B. Free C. Apprehend D. Seize
16	Decibel : Light year	A. Distance : Time B. Sound : Time C. Meter : Dioptre D. Volume : Length
17	**(Complete the sentence with suitable words)** She was _____ woman I had ever seen	A. The most beautifulest B. The most beautiful C. Most beautiful D. More beautiful
18	Inextricable	A. Unexplainable B. Firm C. Inessential D. Deduce
19	They were talking _____ the UN.	A. into B. about C. with D. in
20	Choose correct word or phrase that is most opposite of the word given.Impetuous	A. Defensive B. Ardent C. Hobbyist D. Wary E. Squeal
