

ECAT Pre Engineering MCQ's Test For English Full Book

Sr	Questions	Answers Choice
(Complete the sentence with suitable words)		
1	Khalid score on the test is _____ in the class	A. The highest B. More high C. High D. Highest
2	Courteous	A. Slack B. Loose C. Insolent D. Meticulous
Choose Relative Pair Of Word		
3	Parody: Imitation	A. Stanza: Verse B. Limerick: Poem C. Novel: Book D. Portrait: Painting
4	<p>When Greg went to the giant aquarium near his house, he had one type of animal that he loved to watch. He liked dolphins and manatees, but he loved whales. Baluga whales from the arctic were really neat, but it was the Killer Whales especially that had his heart. For hours, from the park opening untill closing, he could watch them. Their black-and-white patterned skin reminded him of a tuxedo, a penguin, or even a zebra, but on the whales it seemed even more special. It made them stand out in the water. Their playfulness and intelligence amazed him, too. He liked to watch the trainers coax them through jumps, leaps, and other tricks. They talked and squawked at the trainers. One time the trainer even got launched into the air off the whale's nose. It was an impressive feat. It always surprised him now fast and agile such a massive creature could be. He always expected them to be slow and lumbering, but they were fast like a bullet, darting through their huge tanks and exploding from the water. In the park, they were fast like a bullet, darting through their huge tanks and exploding from the water. In the park, they ate fish and other snacks, and lots of them. In the wild, he understood why they had their fierce name. They could eat seals, sea lions, small whales, and just about anything they could catch. Their teeth were sharp and predatory. They were the top of the food chain - even more dangerous than sharks. The Killer Whales were amazing animals. They inspired him to learn more about the sea. He thought that some day he might want to be a marine biologist. Then, he could learn about his favourite animals as a job. For now, he'd have to settle for watching them through the tank's glass and reading about them. However, there was always the future.</p> <p>Question: What does Greg want to do some day?</p>	A. swim with the killer whales B. be a marine biologist C. feed the whales D. take pictures of the whales
5	Terse	A. Chattering B. Threefold C. Lean D. Miserly
<p>Many people like to eat pizza, but not everyone knows how to make it. Making the perfect pizza can be complicated, but there are lots of ways for you to make basic version at home.</p> <p>When you make pizza, you must begin with the crust. The crust can be hard to make. If you want to make the crust yourself, you will have to make dough using flour, water, and yeast. You will have to knead the dough with your hands. If you do not have enough time to do this, you can use a prepared crust that you buy from the store.</p> <p>After you have chosen your crust, you must then add the sauce. Making your own sauce from scratch can take a long time. You have to buy tomatoes, peel them, and then cook them with spices. If this sounds like too much work, you can also purchase jarred sauce from the store. Many jarred sauces taste almost as good as the kind you make at home.</p>		
6	<p>Now that you have your crust and your sauce, you need to add the cheese. Cheese comes from milk, which comes from cows. Do you have a cow in your backyard? Do you know how to milk the cow? Do you know how to turn that milk into cheese? If not, you might want to buy cheese from the grocery store instead of making it yourself. When you have the crust, sauce, and cheese ready, you can add other toppings. Some people like to put meat on their pizza, while other people like to add vegetables. Some people even like to add pineapple! The best part of making a pizza at home is that you can customize it by adding your own favorite ingredients</p> <p>According to the author, which of the following ingredients do you need to have ready</p>	A. I only B. I and II only C. II and III only D. I, II and III

before you can add the toppings?

I crust

II sauce

III cheese

Choose Relative Pair Of Word

7 LUMBER : WALK

- A. Splinter : fly
- B. Flounder : swim
- C. Seed : rind
- D. Coal : asphalt

Fleas are perfectly designed by nature to feast on anything containing blood. Like a shark in the water or a wolf in the woods, fleas are ideally equipped to do what they do, making them very difficult to defeat. The bodies of these tiny parasites are extremely hardy and well-suited for their job.

A flea has a very hard exoskeleton, which means the body is covered by a tough, tile-like plate called a sclerite. Because of these plates, fleas are almost impossible to squish. The exoskeletons of fleas are also waterproof and shock resistant, and therefore fleas are highly resistant to the sprays and chemicals used to kill them.

Little spines are attached to his plate. The spine the flea scurries through an animal's fur in – search of grooming pet tries to pull a flea off through the hair coat, these spines will extend and stick to the fur like Velcro.

Fleas are some of the best jumpers in the natural world. A flea can jump seven inches, or 150 times its own length, either vertically or horizontally. An equivalent jump for a person would be 555 feet, the height of the Washington Monument. Fleas can jump 30,000 times in a row without stopping, and they are able to accelerate through the air at an incredibly high rate – a rate which is over ten times what humans can withstand in an airplane.

8 Fleas have very long rear legs with huge thigh muscles and multiple joints. When they get ready to jump. They fold their long legs up and crouch like a runner on a starting block. Several of their joints contain a protein called resilin, which helps catapult fleas into the air as they jump, similar to the way a rubber band provides momentum to a slingshot. Outward facing claws on the bottom of their legs grip anything they touch when they land.

- A. I only
- B. I and II only
- C. II and III only
- D. I, II and III

The adult female flea mates after her first blood meal and begins producing eggs in just 1 to 2 days. One flea can lay up to 50 eggs in one day and over 2,000 in her lifetime. Flea eggs can be seen with the naked eye, but they are about the size of a grain of salt. Shortly after being laid, the eggs begin to transform into cocoons. In the cocoon state, fleas are fully developed adults, and will hatch immediately if conditions are favorable. Fleas can detect warmth, movement, and carbon dioxide in exhaled breath, and these three factors stimulate them to emerge as new adults. If the flea does not detect appropriate conditions, it can remain dormant in the cocoon state for extended periods. Under ideal conditions, the entire life cycle may only take 3 weeks, so in no time at all, pets and homes can become infested.

Because of these characteristics, fleas are intimidating opponents. The best way to control fleas, therefore, is to take steps to prevent an infestation from ever occurring.

Fleas are difficult to squish because they have

I Sclerites

II Tough spines

III Resilin in their joints

Choose Relative Pair Of Word

9 AFFLUENT : LUCKY

- A. Greedy : Money
- B. Charitable : Stingy
- C. Unsuccessful : Lazy
- D. Rely : Retort

10 Acumen

- A. cleverness
- B. obtuseness
- C. sage
- D. astute

11 Barbarous:

- A. Bloated
- B. Civilized
- C. Dreadful
- D. Conscious

12	The servant is attending _____ him.	A. On B. With C. For D. Upon
13	In the famous nursery rhyme about jack an jill, jill tumbled down the hill after jack.	A. called B. fell C. ran D. flew
14	Choose correct word or phrase that is most opposite of the word given. Interment	A. Brevity B. Resurrection C. Vacation D. Fertility E. Satisfaction
15	Choose Relative Pair Of Word Energize: active	A. Gourmet: curry B. Sever: reckless C. Antiseptic: infection D. Hone: sharp

Philadelphia is a city known for many things. It is where the Declaration of independence was signed in 1776, and it was also the first capital of the United States. But one fact about Philadelphia is not so well-known: it is home to nearly 3,000 murals painted on the sides of homes and buildings around the city. In fact, it is said that Philadelphia has more murals than any other city in the world, with the exception of Rome. How did this come to be?

More than 20 years ago, a New Jersey artist named Jane Golden started a program pairing troubled youth with artists to paint murals on a few buildings around the city. From this small project, something magical happened. The young people involved helped to create magnificent pieces of art, but there were other, perhaps more important benefits. The young people learned to collaborate and get along with many different kinds of people during the various steps required to paint and design a mural. They learned to be responsible, because they needed to follow a schedule to make sure the murals were completed. They also learned to take pride in their community. It is hard for any resident to see the spectacular designs and not feel proud to be a part of Philadelphia.

16	Take a walk around some of the poorest neighborhoods Philadelphia, neighborhoods full of broken windows and littered front steps, and you will find beautiful works of art on the sides and fronts of buildings. Of course they murals are not just in poor neighborhoods, but more affluent ones as well. Special buses take tourists to different parts of the city to see the various murals, which range from huge portraits of historical heroes, to cityscapes, to scenes depicting the diverse ethnic groups that call Philadelphia home.	A. I only B. I and II only C. II and III only D. I, II, and III only
----	--	---

As a result of its success, the mural program created by Jane Golden has now become the nation's largest public art program and a model for troubled youth.

In order to make this passage more engaging to readers, the author could have included

I a brief history of Philadelphia

II picture of some of the murals

III an interview with a program muralist

17	GUILE : INGENUOUS	A. appetite : voracious B. chivalry : natural C. prudence : demanding D. courage : timorous
18	Confident	A. reserved B. sky C. timid D. diffident

19	Medicine which lessens pain	A. Balm B. Antibiotic C. Panacea
----	-----------------------------	--

D. `Anodyne`

Identify Error

20

The girl said that she preferred the blue gown than the pink one. No error

- A. A
 - B. B
 - C. C
 - D. D
 - E. E
-
