

ECAT Pre Engineering MCQ's Test For English Full Book

Sr	Questions	Answers Choice
1	Abstract	A. Theoretical B. Confused C. Indefinite D. Unrealistic
2	One who is well versed in the science of female ailments:	A. Gynaecologist B. Dentist C. Druggist D. Oculist
3	Reena keeps back nothing her friends.	A. Of B. In C. From D. On
4	Frogs abound This pond.	A. On B. With C. Upon D. In
5	Choose Relative Pair Of Word Error: Experience	A. Training: skill B. Skill: Mistake C. Sharp: clever D. Success: victory
6	Choose the correctly spelt word.	A. NAVIJATION B. NAVIGATION C. NAVITATION D. NEVIGATION
7	Q.2 The public distribution system which provides food at low prices is a subject of vital concern There is a growing realization that though Pakistan has enough food to feed its masses three square meals a day the monster of starvation and food insecurity continues to haunt the poor in our country Increasing the purchasing power of the poor through providing productive employment leading to rising income and thus good standard of living is the ultimate objective of public policy. However till then there is a need to provide assured supply of food through a restructured more efficient and decentralized public distribution system (PDS). Although the PDS is extensive it is one of the largest such systems in the world it has yet to reach the rural poor and the far off places it remains an urban phenomenon with the majority of the rural poor still out of its reach due to lack of economic and physical access the poorest in the cities and the migrants are left out for they generally do not possess ration cards The allocation of PDS supplies in big cities is larger than in rural areas in view of urgently needs to be streamlined. In addition considering the large food grains production combined with food subsidy on one hand and the continuing slow starvation and dismal poverty of the rural population on the other there is a strong case for making PDS target group oriented. The growing salaried class is provided job security regular income and percent insulation against these gains of development have not percolated down to the vast majority of our working population. If one only dearness allowance to the employees in public and private sector and looks at its growth in the past few years the rising food subsidy is insignificant to the point of inequity The food subsidy is a kind of D.A to the poor the self-employed and those in the unorganized sector of the economy. It is true that subsidies should not become a permanent feature except for the destitute disabled widows and the old it is also true dependence and hence i	A. It has improved its effectiveness over the years B. It has remained effective only in the cities C. It is the unique in the world because of its effectiveness D. It had reached the remotest corner of the country
8	Mendicant : Begging	A. Coup: Thunder B. Proponent: Abstained C. Player: Chess D. Charlatan: Deception

The public distribution system which provides food at low prices is a subject of vital concern There is a growing realization that though Pakistan has enough food to feed its masses three square meals a day the monster of starvation and food insecurity continues to haunt the poor in our country Increasing the purchasing power of the poor through providing productive employment leading to rising income and thus good standard of living is the ultimate objective of public policy. However till then there is a need to provide assured supply of food through a restructured more efficient and decentralized public distribution system (PDS). Although the PDS is extensive it is one of the largest such systems in the world it has

yet to reach the rural poor and the far off places it remains an urban phenomenon with the majority of the rural poor still out of its reach due to lack of economic and physical access the poorest in the cities and the migrants are left out for they generally do not possess ration cards The allocation of PDS supplies in big cities is larger than in rural areas in view of urgently needs to be streamlined. In addition considering the large food grains production combined with food subsidy on one hand and the continuing slow starvation and dismal poverty of the rural population on the other there is a strong case for making PDS target group oriented. The growing salaried class is provided job security regular income and percent insulation against these gains of development have not percolated down to the vast majority of our working population. If one only dearness allowance to the employees in public and private sector and looks at its growth in the past few years the rising food subsidy is insignificant to the point of inequity The food subsidy is a kind of D.A to the poor the selfemployed and those in the unorganized sector of the economy. It is true that subsidies should not become a permanent feature except for the destitute disabled widows and the old it is also true dependence and hence is habit-forming killing the general initiative of the people by making PDS target group oriented not only the poorest and needlest would be reached without additional cost but it will actually cut overall costs incurred on large cities and for better off localities when the food and food subsidy are limited the rural and urban poor should have the priority in the PDS supplies The PDS should be closely linked with programs of employment generation and nutrition improvement. h. Which of the following according to the passage is compared with dearness

Choose correct word or phrase that is most opposite of the word given. B. Humidity 10 C. Insolvent Tawdary Elegant E. Awestruck A. Systematic Choose correct word or phrase that is most opposite of the word given. B. Ecstasy 11 C. Linear Haphazard D. Follower E. Dangerous A. rumor Many doctors are still general practitioners, but the tendency is towards specialization in B. trend 12 C. prejudice medicine. D. security A. Accustomed with B. Accustomed by 13 They are _____ work peacefully C. Accustomed of D. Accustomed to A. Expensivier than B. More expensive 14 This apartment is that one More expensive than D. Expensive than A. Foal: Colt B. Lion: Lioness 15 Human: Infant Dog: Whelp D. Bear : Born

Q.5 Recent advances is science and technology have made it possible for geneticists to find out abnormalities in the unborn foetus and take remedial action to rectify some defects which would otherwise prove to be fatal to the child Though genetic engineering is still at its infancy.scientist can now predict with greater accuracy a genetic disorder it is not yet an exact science since they are not in a position to predict when exactly a genetic disorder will set in While they have not yet been able to change the genetic order of the gene in germs they are optimistic and are holding out that in the near future they might be successful in achieving this feat they have however acquired the ability in manipulating tissue cells However genetic mis-information can sometimes be damaging for it may adversely affect people psychologically Genetic information may lead to tendency to brand some people as inferiors Genetic information can therefore be abused and its application in deciding the sex of the foetus and its subsequent abortion is now hotly debated on ethical lines but on this issue geneticists cannot be squarely blamed though this charge has often been leveled at them it is mainly a societal problem At present genetic engineering is a costly process of detecting disorders but scientists hope to reduce the costs when technology becomes more advanced this is why much progress in this area has been Possible in scientifically advanced

and rich countries like the U.S.A U.K and japan it remains to be seen if in the future this science will lead to the development of a race of supermen on will be able to obliterate disease from this world.

m. Which of the following is not true according to the passage

A. Society is not affected by the research in genetic engineering

A. Food for work program

C. Food subsidy

A. Marble

B. Unemployment allowance

D. Procurement price of food grains

- B. Genetic engineers are not able to say some things with certainly C. If genetic information is not property handled it will create
- problems
- D. Manipulation of genes is presently done only in tissue cell

17 A medicine that kills germs: A. Pesticide

B. Homicide

C. Regicide

D. Germicide

Choose correct word or phrase that is most opposite of the word given.

A. Ruthless

B. Expensive

C. Capable

E. Free

18

16

9

allowance

Feasible

This is the age of machine. Machines are everywhere, in the fields, in the factory, in the home, In the street, in the city, in the country, everywhere. To fly, it is not necessary to have wings; there are machines. To swim under the sea, it is not necessary to have gills; there are machines. To kill our fellowmen in over-whelming numbers, there are machines. Petrol machines alone provide ten times more power than all human beings in the world. In the busiest countries, each individual has six hundred human slaves in his machines.

What are the consequences of this abnormal power? Before the war, it looked as though it might be possible, for the first time in history to provide food and clothing and shelter for the teaming population of the world-every man, woman and child. This would have been the greatest triumphs of science. And yet, if you remember, we saw the world crammed, full of food and people hungry. Today, the leaders are bare and millions, starving. That's more begin to hum, are we going to see again more and more food, and people still hungry? For the goods, it makes the goods, but avoids the consequences.

A. Ten times more power than human beings in the world

B. Less power than human beings in the world

C. As muchpower as human beings in the world

D. None of the above is correct

Petrol machinery is used to provides?

19

20	Identify Error Had he invited me I might have attended his marriage No error	A. A B. B C. C D. D E. E	
----	---	--------------------------------------	--
