

ECAT Pre Engineering MCQ's Test For English Full Book

Sr	Questions	Answers Choice
1	<p>Choose correct word or phrase that is most opposite of the word given.</p> <p>Haphazard</p>	<p>A. Systematic B. Ecstasy C. Linear D. Follower E. Dangerous</p>
2	<p>Identify Error</p> <p>The roads <u>are wet</u> <u>it must be raining yesterday.</u> <u>No error</u></p>	<p>A. A B. B C. C D. D E. E</p>
3	<p>Each nation has its own peculiar character which distinguishes it from others. But the people of the world have more points in which they are all like each other than points in which they are different. One type of person that is common in every country is the one who always tried to do as little as he possibly can and to get as much in return as he can. His opposite, the man who is in the habit of doing more than is strictly necessary and is ready to accept what is offered in return, is rare everywhere.</p> <p>Both these types are usually unconscious of their character. The man who avoids effort is always talking about his 'rights'; he appears to think that society owes him a pleasant easy life. The man who is always doing more than his sheer talks of 'duties' feels that the individual is in debt to society, and not society to the individual. As a result of their view, neither of these men thinks that he behaves at all strangely.</p> <p>Which of the following thinks that the individual is in debt to the society?</p>	<p>A. A person who talks of his 'rights' only B. A person who always doing more than his sheer talks of 'duties'; C. Every citizen of the country D. A person who talks of his 'duties' only</p>
4	<p>Caliber : Rifle</p>	<p>A. Army : Ammunition B. Compass : Bore C. Quality : Shoot D. Gauge : Rails</p>
5	<p>Bungle</p>	<p>A. Select B. Unpack C. Quarrel with D. Accomplish smoothly</p>
6	<p>Antipathy</p>	<p>A. Liking B. Pathetic C. Provocation D. Bluntness</p>
7	<p>There is no use _____ going there at this time.</p>	<p>A. At B. In C. On D. Of</p>
8	<p>Identify Error</p> <p><u>Most of teachers</u> <u>at the state university</u> <u>care about their students progress</u> <u>No error</u></p>	<p>A. A B. B C. C D. D E. E</p>
9	<p>When you imagine the desert, you probably think of a very hot place covered with sand. Although this is a good description for many deserts. Earth's I with ice: Antarctica. In order for an area to be considered a desert, it must receive very little rainfall. More specifically, it must receive an average of less than ten inches of precipitation - which can be rain, sleet, hail , or snow - on the ground every year. Antarctica, the coldest place on earth, has an average temperature that usually falls below the freezing point. And because cold air holds less moisture than warm air, the air in Antarctica does not hold much moisture at all. This is evident in the low precipitation statistics recorded for Antarctica. For example , the central part of Antarctica receives an average of less than 2 inches of snow every year. The</p> <p>coastline of Antarctica receive a little bit more-between seven and eight inches a year. Because Antarctica gets so little precipitation every year, it is considered a desert. When precipitation falls in hot deserts, it quickly evaporates back into the atmosphere. the air over Antarctica is too cold to hold water vapor, so there is very little evaporation. Due to this low rate of evaporation, most of the snow that falls to the ground remains there permanently, eventually building up into thick ice sheets. Any snow that does not freeze into ice sheets becomes caught up in the strong winds that constantly blow over Antarctica. These snow-filled winds can make it look as if it is snowing. Even though snowfall is very rare there,</p>	<p>A. moisture in the air falls to the ground B. any type of weather event</p> <p>C. weather events that only happen in very cold areas D. a blizzard that occurs in areas with limited snowfall</p>

ptizzards are actually very common on Antarctica. Question: which is the best definition for precipitation?

10	Acclamation	A. declamation B. possession of something new C. amalgamation D. enthusiastic approval
11	Active:	A. Animated B. Adjust C. Passive D. Agile
12	<p>Q.6 A great deal of discussion continues as to the real extent of global environmental degradation and its implications. What few people challenge however is that the renewable natural resources of developing countries are today subject to stresses of unprecedented magnitude. These pressures are brought about in part by increased population and the quest for an ever expanding food supply. Because the health, nutrition and general well-being of the poor majority are directly dependent on the integrity and productivity of their natural resources, the capability of governments to manage them effectively over the long term becomes of paramount importance. Developing countries are becoming more aware of the ways in which present and future economic development must build upon a sound and sustainable natural resource base. Some are looking at our long tradition in environmental protection and are receptive to US assistance which recognizes the uniqueness of the social and ecological systems in these tropical countries. Developing countries recognize the need to improve their capability to analyze issues and their own natural resource management. In February 1981, for example, AID funded a national Academy of Sciences panel to advise Nepal on their severe natural resource degradation problems. Some countries such as Senegal, India, Indonesia and Thailand are now including conservation concerns in their economic development planning process. Because so many governments of developing nations have recognized the importance of these issues, the need today is not merely one of raising additional consciousness but for carefully designed and sharply focused activities aimed at management regimes that are essential to the achievement of sustained development.</p> <p>c. There has been a pronounced deterioration of habitat all over the globe because of</p>	A. Rigorous operation of the Malthusian principle B. Unprecedented urbanization and dislocation of self-contained rural communities C. Optimum degree of industrialization in the developing countries D. Large scale deforestation and desertification
13	Although buses are scheduled to depart at a certain hour, they are often late.	A. listed B. obligated C. requested D. loaded
14	In the past, energy sources were thought to be boundless .	A. without limits B. inexpensive C. exasperated D. organized
15	Annihilation	A. total destruction B. digestion C. insult D. sanitation
16	<p>In the early 1920's, settlers came to Alaska looking for gold. They traveled by boat to the coastal towns of Seward and Knik, and from there by land into the gold fields. The trail they used to travel inland is known today as the Iditarod Trail, one of the National Historic Trails designated by the congress of the United States. The Iditarod Trail quickly became a major thoroughfare in Alaska, as the mail and supplies were carried across this trail. People also used it to get from place to place, including the priests, ministers, and judges who had to travel between villages down this trail was via dog sled.</p> <p>Once the gold rush ended, many gold-seekers went back to where they had come from, and suddenly there was much less travel on the Iditarod Trail. The introduction of the airplane in the late 1920's meant dog teams were mode of transportation, of course airplane carrying the mail and supplies, there was less need for land travel in general. The final blow to the use of the dog teams was the appearance of snowmonies.</p> <p>By the mid 1960's most Alaskans didn't even know the Iditarod Trail existed, or that dogs had played a crucial role in Alaska's early settlements. Dorothy G. Page, a self-made historian, recognized how few people knew about the former use of sled dogs as working animals and about the Iditarod Trail's role in Alaska's colorful history. To she came up with the idea to have a dog sled race over the Iditarod Trail. She presented her idea to an enthusiastic musher, as dog sled drivers are known, named Joe Redington, Sr. Soon the pages and the Redintons were working together to promote the idea of the Iditarod race.</p> <p>Many people worked to make the first Iditarod Trail Sled Dog Race a reality in 1967. The Aurora Dog Musher's Club, along with men from the Adult Camp in Sutton, helped clear years of overgrowth from the first nine miles of the Iditarod Trail. To raise interest in the race, a \$25,000 purse was offered, with Joe Redington donating one acre of his land to help raise the funds. The short race, approximately 27 miles long, was put on a second time in 1969.</p> <p>After these first two successful races, the goal was to lengthen the race a little further to the ghost town of Iditarod by 1973. However in 1972, the U.S. Army reopened the trail as a winter exercise, and so in 1973, the decision was made to take the race all the way to the city of Nome, over 1,000 miles. There were who believed it could be done and that it would</p>	A. More people could compete in the Iditarod race B. The mushers had to get permission from the U.S. Army to hold the race C. The Trail was cleared all the way to Nome D. The Iditarod race became a seasonal Army competition

nome-over 1,000 miles. There were who believed it could not be done and that it was crazy to send a bunch out into vast, uninhabited Alaskan wilderness. But the race went! 22 mushers finished that year, and to date over 400 people have completed it.

Based on information in the passage, it can be inferred that because the U.S. Army reopened the Iditarod Trail in 1972,
