

ECAT Pre Engineering MCQ's Test For English Full Book

Sr	Questions	Answers Choice
1	Auspicious	A. Pictorial B. Ill-starred C. Trusting D. Blunt
2	Urbane	A. Loitering B. Rustic C. Churlish D. Misguided
3	Avenge:	A. Reluctant B. Oblivious C. Hostile D. Vindicate
	<p>Arrowheads, which are ancient hunting tools, are often themselves 'hunted' for their interesting value both as artifacts and as art. Some of the oldest arrowheads in the United States date back 12,000 years. They are not very difficult to find. You need only to walk with downcast eyes in a field that has been recently tilled for the spring planting season, and you might find one.</p> <p>Arrowheads are tiny stones or pieces of wood, bone, or metal which have been sharpened in order to create a tipped weapon used in hunting. The material is honed to an edge, usually in a triangular fashion, and is brought to a deadly tip. On the edge opposite the tip is a flared tail. Though designs vary depending on the region, purpose, and era of the arrowhead's origin, the tails serve the same purpose. The tail of the arrowhead is meant to be strapped onto a shaft, which is a straight wooden piece such as a spear or an arrow. When combined, the arrowhead point and the shaft become a lethal projectile weapon to be thrown by arm or shot with a bow at prey.</p>	
4	<p>Indian arrowheads are important artifacts that give archeologists (scientists who study past human societies) clues about the lives of Native Americans. By analyzing an arrowhead's shape, they can determine the advancement of tool technologies among certain Native American groups. By determining the origin of the arrowhead material (bone, rock, wood, or metal), they can trace the patterns of travel and trade of the hunters. By examine the location of the arrowheads, archeologists can map out hunting grounds and other social patterns.</p> <p>Arrowheads are commonly found along riverbanks or near creek beds because animals drawn to natural water sources to sustain life were regularly found drinking along the banks. For this reason, riverbeds were a prime hunting ground for the Native Americans. Now, dry and active riverbeds are prime hunting grounds for arrowhead collectors.</p> <p>Indian arrowheads are tiny pieces of history that fit in the palm of your hand. They are diary entries in the life of a hunter. They are museum pieces that hide in the dirt. They are symbolic of the eternal struggle between life and death.</p> <p>As used in paragraph 2, which is the best <u>definition</u> for projectile?</p>	A. Shaped like a triangle B. No longer in use C. Unsophisticated in form D. Designed to be thrown
5	Star : Constellation	A. Pupils : School B. Island : Archipelago C. Hospital : Nurses D. Nova : Cosmetology
6	Paucity	A. Treachery B. Profusion C. Vixen D. Tincture
7	Choose Relative Pair Of Word Correspondence: Clerk	A. Office: Manager B. Secretary: Stenographer C. Proceeds: Accounts D. Records: Archivist
		A. Rewriting

8	Student body force the college authorities _____ its curriculum guidelines for newly admitted students	B. To rewrite C. Rewrite of D. For to rewrite
(Complete the sentence with suitable words)		
9	When the machines are not lubricated _____ decreases the speed.putting more load on the lifts	A. Then B. Than C. So D. It
10	Recent advances in science and technology have made it possible for geneticists to find out abnormalities in the unborn foetus and take remedial action to rectify some defects which would otherwise prove to be fatal to the child. Though genetic engineering is still at its infancy, scientists can now predict with greater accuracy a genetic disorder. It is not yet an exact science since they are not in a position to predict when exactly a genetic disorder will set in. While they have not yet been able to change the genetic order of the gene in germs, they are optimistic and are holding out that in the near future they might be successful in achieving this feat. They have, however, acquired the ability in manipulating tissue cells. However, genetic mis-information can sometimes be damaging for it may adversely affect people psychologically. Genetic information may lead to a tendency to brand some people as inferiors. Genetic information can therefore be abused and its application in deciding the sex of the foetus and its subsequent abortion is now hotly debated on ethical lines. But on this issue geneticists cannot be squarely blamed though this charge has often been leveled at them. It is mainly a societal problem. At present genetic engineering is a costly process of detecting disorders but scientists hope to reduce the costs when technology becomes more advanced. This is why much progress in this area has been possible in scientifically advanced and rich countries like the U.S.A., U.K. and Japan. It remains to be seen if in the future this science will lead to the development of a race of supermen or will be able to obliterate disease from this world. Which of the following is not true of the genetic engineering movement?	A. Possibility of abuse B. It is confronted by ethical problems C. Increased tendency to manipulate gene cells D. Acquired ability to detect genetic disorders in unborn babies
11	The jug is full _____ milk.	A. Of B. With C. In D. Upon
12	Choose correct word or phrase that is most opposite of the word given. Consequence	A. Effective B. Plan C. Cause D. Retaliation E. Shame
13	The counselor decided _____ the application	A. To accept B. Accepting C. Accepts D. To accepts
14	Children are the delight _____ a house.	A. for B. of C. to D. with
(Complete the sentence with suitable words)		
15	Until its defeat by Ireland Pakistani team won most of its test matches by innings and had achieved an _____ series of wins	A. Defeated B. Unbroken C. Difficult D. Aggressive
16	Identify Error <u>The water</u> released <u>from</u> the dam will <u>further</u> intensify the food <u>situation</u> . <u>No error</u>	A. A B. B C. C D. D E. E
17	Identify Error His <u>performance</u> was <u>for</u> better <u>than that</u> of <u>his</u> cousin. <u>No error</u>	A. A B. B C. C D. D E. E
18	It will be necessary for the doctor to <u>widen</u> the pupils of your eyes with some drops in order to examine them	A. Message B. Treat C. Dilate D. Solar
19	He does not work with his hands, he works _____ the machine.	A. with B. by C. at D. on

Choose correct word or phrase that is most opposite of the word given.

20

Impair

- A. Supplant
 - B. Enhance
 - C. Extend
 - D. Graceful
 - E. Singly
-
