

Introduction to programming

Sr	Questions	Answers Choice
1	How many keyword (Reserve words) are ?	A. 28 B. 29 C. 32 D. 31
2	Which language was developed by Dennis Ritchie ?	A. Java B. C C. Python D. COBOL
3	Which is used to convert high level programming language into machine language ?	A. compiler B. C language C. code programming D. internal programming
4	_____ is a software that is responsible for the conversion of program files to machine understandable and executable code:	A. compiler B. editor C. ide D. debugger
5	_____ are added in the source code to further explain the techniques and algorithms and by the programmer.	A. messages B. hints C. comments D. explanations
6	Which languages is understood by computer ?	A. machine language B. assemblylanguage C. high levellanguage D. middle levellanguage
7	A _____ cannot be used as a variable name:	A. reserved word B. simple words C. stringwords D. reserved variable
8	If the value is not proceeded by a sign, it is considered:	A. negative B. positive C. module D. single constants
9	Floating point numbers store numbers up to:	A. seven digits of precision B. eightdigits of precision C. tendigits of precision D. sixdigits of precision
10	A list of words that are predefined and must not be used by the programmer to name his own variables are known:	A. auto words B. reservedwords C. restrictedwords D. predefinedwords
11	Every programming language has some primitive building blocks and follows some grammar rules known as:	A. rules B. signs C. blocks D. syntax
12	What is the name given to a memory location as the data is physically stored inside the computer's memory ?	A. constant B. realconstants C. characterconstants D. variable
13	The execution of program starts from:	A. main section B. headersection C. header file D. #include
14	Which one is not IDE ?	A. x code B. dev, c++ C. visual studio D. python
15	_____ can be thought of as a container to store constants:	A. box B. jar C. variable D. collection

16 These are the values without a decimal point:
A. integer constants
B. stringconstants
C. characterconstants
D. singleconstants

17 software that provides a programming environment and facilitates the programmer is writing and executing computer programs is known as:
A. IDE
B. block
C. designer
D. software

18 Which from the following describes the types of constant that can be stored in variable ?
A. character
B. data type
C. variable
D. constant

19 Which header file includes file that contains information related to input and output functions ?
A. math.h
B. stdio.h
C. string.h
D. c.h

20 Which is a part where head files are included ?
A. header section
B. mainsection
C. bodysection
D. fullsection
