

Introduction to programming

Sr	Questions	Answers Choice
1	How many characters can be stored in a char type variable ?	A. 1 B. 3 C. 4 D. 2
2	A collection of all the necessary tools for programming makes up a:	A. tools B. programming environment C. designer D. programming languages
3	_____ is a software that is responsible for the conversion of program files to machine understandable and executable code:	A. compiler B. editor C. ide D. debugger
4	Any single small case letter, upper case letter, digit, punctuation mark, special symbol enclosed within ' ' is considered:	A. integerconstants B. stringconstants C. characterconstants D. singleconstants
5	Which header file includes file that contains information related to input and output functions ?	A. math.h B. stdio.h C. string.h D. c.h
6	Which section contains header files ?	A. header section (Link section) B. main section C. reservesection D. bodysection
7	Statements that are ignored by the compiler and do not get executed:	A. read only B. comments C. enclosed in braces D. curly braces
8	If the value is not proceeded by a sign, it is considered:	A. negative B. positive C. module D. single constants
9	_____ specifies the type of variable, the range of values allowed by that variable and the kind of operations that can be performed on it:	A. variable B. constant C. string D. declaring a variable
10	In main function everything enclosed in:	A. body B. included files C. curly braces D. file
11	Multi-line comments start with;	A. /* and end */ B. /==/ C. /?/?/ D. /*and end at */
12	Software that allows programmers to write and edit computer programs:	A. editor B. code C. software D. programmer
13	We include header files in our program by writing the include statements at _____ of program:	A. top B. middle C. end D. section
14	software that provides a programming environment and facilitates the programmer is writing and executing computer programs is known as:	A. IDE B. block C. designer D. software
15	Set of instruction given to the computer to perform a specific task is known as:	A. computer program B. software C. both a and b D. none of these

16	_____ cannot be declared unless we mention its data type:	A. variable B. constant C. string D. declaring a variable
17	How many types of comments in C language are ?	A. 1 B. 2 C. 3 D. 6
18	Which help us to understand our own code even after years of writing it?	A. common words B. comments C. end sensitive D. section sensitive
19	Which data type is used to store a real number ?	A. float B. negative integer C. unsigned D. original integer
20	C language is:	A. top sensitive B. casesensitive C. endsensitive D. sectionsensitive
