

## Introduction to programming

Sr	Questions	Answers Choice
1	We need to declare a before we can use it in the program:	A. variable B. constant C. string D. underscore
2	For initializing a variable, we use operator:	A. = B. ? C. @ D. >
3	How many bytes of memory is used by integer data type?	A. 1 B. 4 C. 2 D. 3
4	How many keyword (Reserve words) are ?	A. 28 B. 29 C. 32 D. 31
5	An consists of tools that help a programmer throughout the phases or writing, executing an testing a computer program:	A. DBA B. IDE C. EDP D. editor
6	A program written in high level language is called:	A. source code B. objectcode C. normalcode D. binarycode
7	Which is used to convert high level programming language into machine language?	A. compiler B. C language C. code programming D. internal programming
8	These are the values including a decimal point:	A. real constants B. string constants C. characterconstants D. singleconstants
9	The process of running a program is called:	A. debugging B. compiling C. execution D. using
10	Programmers write computer programs in special languages called:	A. general languages B. programming languages C. popper languages D. constant
11	Single-line comments start with:	A. // B. == C. ?? D. &&
12	Which keyword is used to declare the floating type variable?	A. int B. float C. positive D. char
13	Software that facilitates programmers in writing computer programs is known as:	A. a complier B. an editor C. an IDE D. a debugger
14	Which are the values that do not change ?	A. constants  B. variables C. numeric D. string
15	A cannot be used as a variable name:	A. reserved word B. simple words C. stringwords D. reserved variable

16	A collection of all the necessary tools for programming makes up a:	A. tools B. programming environment C. designer D. programming languages
17	Which header file includes file that contains information related to input and output functions ?	A. math.h B. stdio.h C. string.h D. c.h
18	specifies the type of variable, the range of values allowed by that variable and the kind of operations that can be performed on it:	A. variable B. constant C. string D. declaring a variable
19	Set of instruction given to the computer to perform a specific task is known as:	A. computer program B. software C. both a and b D. none of these
20	Any single small case letter, upper case letter, digit, punctuation mark, special symbol enclosed within ' ' is considered:	A. integerconstants B. stringconstants C. characterconstants D. singleconstants
