

Conditional Logic

Sr	Questions	Answers Choice
1	In which statement we specify a condition, and associate a code to it:	A. selection B. if C. go to D. loop
2	Selection statements within selection statements are called:	A. if else B. condition C. while D. nested selection structures
3	Which of the following is a decision statement is called.	A. Nested if B. Simple if C. Many if D. Multiple if
4	The statements which help us to decide which statements should be executed next, on the basis of conditions, are called:	B. selection statements
5	Selection statements within selection statements are called.	A. if -else B. condition C. while D. nested selection structures
6	Which of the following is the default control structure in C language ?	
7	How many types of selection structure.	A. 1 B. 2 C. 3 D. 4
8	In which control all the statements are executed in the given sequence.	A. Error Control Statements B. Selection control statements C. Repetition control statements D. Sequential Control Statements
9	If we want to associate more than one statements to an if statement, then they need to be enclosed inside a:	A. () B. * C. : D. { }
10	How many types of selection structure ?	A. 1 B. 3 C. 2 D. 4
11	Which statement is used to execute one set of instructions if a particular condition is true and another set of instructions if the condition is false ?	A. if B. if else C. else D. loop
12	In which control all the statements are executed in the given sequence:	
13	A set of multiple instructions enclosed in braces is called a block or.	A. if B. if -else C. while D. compound
14	Which Statements is used to execute not set of instructions, if a particular condition is true and another set of instructions if the condition is false.	A. if B. else C. if else D. loop
15	A ____ could be any valid expression including arithmetic expression relational expression, logical expressions.	A. if B. condition C. while D. compound
16	Which of the following is the default control structure in C language.	A. Sequential Control Statements B. Selection Control statements C. Repetition Control Statements D. Error Control Statements
17	A ____ could be any valid expression including arithmetic expressions, relational expressions, logical expressions:	A. if B. while C. compound

D. condition

18 A condition can be any _____ expression:

- A. arithmetic
- B. relational
- C. logical
- D. arithmetic, relational or logical

19 _____ statement executes the set of statements under if statement if the condition is true and executes the set of statements under else otherwise:

- A. if else
- B. condition
- C. while
- D. compound

20  Question Image

- A. a++;
- B. a--;
- C. both (a) and (b)
- D. none
