

## Data and Repetition

Sr	Questions	Answers Choice
1	An is a data structure that can hold multiple values of same data type.	A. Loop B. Array C. For loop D. Index
2	Which of the following is not a type of loop.	A. for loop B. while loop C. do while loop D. none of these
3	An important property of is that it stores all the values at consecutive locations inside the computer memory.	A. Loop B. Array C. for loop D. index
4	Array can be initialized declaration.	A. At the time of B. After C. Before D. Both a and b
5	If the size of an array is 100, the range of indexes will be:	A. 0-99 B. 0-100 C. 1-100 D. 2-102
6	structure allows repetition of a set of instructions.	A. Loop B. Conditional C. Control D. Data
7	If array first element has the index.	A. 0 B. 1 C. 2 D. 3
8	To initialize the array in a single statement, initialize it declaration:	A. at the time of B. after C. before D. both a & mp; b
9	Which makes it easier to read and write values in arrays.	A. Loop B. While loop C. end D. simple loop
10	An array is a structure:	A. loop B. control C. data D. conditional
11	array can be initialized declaration:	A. at the time of B. after C. before D. both a & b
12	part of for loop is executed first.	A. Condition B. Body C. Initialization D. Increments
13	Which is a countainer to store collection of data items in a specific layout.	A. Data structure B. Simple Structure C. Normal Structure D. Complex structure
14	We use loops to repeat a pattern multiple times.	A. Loop B. While loop C. Nested D. Simple loop
15	Array elements are strored at memory locations.	A. Contiguous B. Scattered C. Divided D. None

16	part of for loop is executed first:	A. condition B. body C. intialization D. increment/decrement
17	Each run of a loop is called an	A. Condition B. Iteration C. Standard D. Index
18	To initialize the array in a single statement, initialize it declaration.	A. At the time of B. After C. Before D. Both a and b
19	Array elements are stored at memory locations:	A. contiguous B. scattered C. divided D. none
20	structure allows repetition of a set of instructions:	A. loop B. conditional C. control D. data
