

Chords of a Circle

Sr Questions Answers Choice 1 A cute angle is: A 80° B 80° C 90° C			
1 Acute angle is: 2 Which mathematical expression is correct: 3 Sin 60° = A 1	Sr	Questions	Answers Choice
Sin 60° = A 1 B 0 Sec 270° = C. A Sides B. A 1 B 0 B. 1 C1 D. Not defined A Sides B. Angles C. Squares D. Vertex A Sides B. Angles D. Not defined A Sides B. Angles C. Medians D. Altitude The sum of the squares of sides of a rhombus is equal to the sum of the squares of its: A Sides B. Diagonias C. Medians D. Altitude A Sides B. Diagonias C. Medians D. Altitude A Sides B. Diagonias C. Medians D. Altitude A Sides B. Angle B. Angle C. Point D. Altitude A Median D. Altitude A Medians D. Altitude A Medians D. Altitude C Side D. Vertex A Medians D. Altitude A O D. Not defined A O D. Not defined A O D. Not defined A Sides B. Points C. Sides D. Vertex A O D. Not defined A O D. Not defined D1 A D D. Not defined D1 A Sides D. Angles D. Vertex A O D. Not defined D1 A D D. Not defined D1 A Sides D. Angles D. Vertex A O D. Not defined D1 A D D. Not defined D1 A D D. Not defined D1 A Sides B. Diagonias D. Altitude A D D. Not defined D1 A D D1	1	Acute angle is:	B. 60° C. 90°
Sin ou = B. 0 A	2	Which mathematical expression is correct:	
4 Sec 270° = Ref. 1 C.1 D. Not defined A. Sides B. Angles C. Squares D. Squares D. Altitude 7 The medians of equiangular triangles are proportional to their corresponding: 8 Angle C. Point D. Altitude 8 Angle C. Point D. Altitude 8 Two triangles are similar if and only of their corresponding are equal: 9 Three times the sequence on any side of an equillateral triangle equal to four times the square on the: 10 In an equillateral triangle ABC, then side BC is trisected at D then: 11 Tan 180° = 12 Cot 45° = 13 Question Image 8 A Sides B. Points B. Altitude C. Side D. Squares B. Altitude C. Side D. Squares B. Altitude C. Side D. Squares B. Altitude C. Side D. Hot defined D1 C. O. D. Not defined D1 C	3	Sin 60° =	
5 Question image 8 Angles C. Squares D. Vertex 6 The sum of the squares of sides of a rhombus is equal to the sum of the squares of its: 7 The medians of equiangular triangles are proportional to their corresponding: 8 A Sides B. Dagonlas C. Medians D. Altitude 8 Two triangles are similar if and only of their corresponding are equal: 9 Three times the sequence on any side of an equilateral triangle equal to four times the squares of the: 10 In an equilateral triangle ABC, then side BC is trisected at D then: 11 Tan 180° = 12 Cot 45° = 14 The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its: A Sides B. Points C. Point D. Altitude A Median B. Altitude C. Side D. Vertex A 1 0 B. 1 C. Not defined D. 1.1 B. 1 C. Not defined D. Not defined D. Not defined A 1 B. 1 C. O. D. Not defined D. Not defined A Sides B. Diagonlas C. C. O. C. Medians D. Altitude	4	Sec 270° =	B. 1 C1
The sum of the squares of sides of a rhombus is equal to the sum of the squares of its: C. Medians D. Altitude 7 The medians of equiangular triangles are proportional to their corresponding: 8 A. Sides B. Angle C. Point D. Altitude 8 Two triangles are similar if and only of their corresponding are equal: 9 Three times the sequence on any side of an equilateral triangle equal to four times the square on the: 10 In an equilateral triangle ABC, then side BC is trisected at D then: 11 Tan 180° = C. Angles D. Squares A. Medians B. Altitude C. Side D. Vertex 10 In an equilateral triangle ABC, then side BC is trisected at D then: 11 Tan 180° = C. Angles D. Squares A. O. B. 1 C. Not defined D1 C. Not defined D1 D. Not defined D1 A. Sides B. Diagonias C. Medians D. Altitude	5	Question Image	B. Angles C. Squares
The medians of equiangular triangles are proportional to their corresponding: Two triangles are similar if and only of their corresponding are equal: Three times the sequence on any side of an equilateral triangle equal to four times the square on the: Three times the sequence on any side of an equilateral triangle equal to four times the square on the: In an equilateral triangle ABC, then side BC is trisected at D then: Tan 180° = Cot 45° = Cot 45° = A. Median B. Alfitude C. Side B. 1 C. Not defined D1 Co. Not defined D1 A. 1 B1 C. Not defined D1 D. Not defined D. Not defined D. Not defined D. Alfitude The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its: C. Medians D. Altitude	6	The sum of the squares of sides of a rhombus is equal to the sum of the squares of its:	B. Diagonlas C. Medians
8 Two triangles are similar if and only of their corresponding are equal: 9 Three times the sequence on any side of an equilateral triangle equal to four times the square on the: 10 In an equilateral triangle ABC, then side BC is trisected at D then: 11 Tan 180° = 12 Cot 45° = 13 Question Image 14 The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its: B. Points C. Angles D. Squares A. Median B. Altitude C. Side D. Vertex A. 0 B. 1 C. Not defined D1 C. 0 D. Not defined D1 C. 0 D. Not defined D1 A. Sides B. Diagonlas C. Medians D. Altitude	7	The medians of equiangular triangles are proportional to their corresponding:	B. Angle C. Point
Three times the sequence on any side of an equilateral triangle equal to four times the square on the: In an equilateral triangle ABC, then side BC is trisected at D then: In an equilateral triangle ABC, then side BC is trisected at D then: In an 180° = Cot 45° = Cot 45° = Cot 45° = A. 0 B. 1 C. Not defined D1 B1 C. 0 D. Not defined	8	Two triangles are similar if and only of their corresponding are equal:	B. Points C. Angles
Tan 180° = Cot 45° = Cot 45° = Cot 45° = A. 1 B1 C. 0 D. Not defined D1 A. 1 B1 C. 0 D. Not defined A. 1 B1 C. 0 D. Not defined A. Sides B. Diagonlas C. Medians D. Altitude	9		B. Altitude C. Side
Tan 180° = B. 1 C. Not defined D1 12 Cot 45° = A. 1 B1 C. 0 D. Not defined 13 Question Image A. Sides B. Diagonlas C. Medians D. Altitude	10	In an equilateral triangle ABC, then side BC is trisected at D then:	
Cot 45° = Question Image A. Sides B1 C. 0 D. Not defined The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its: A. Sides B. Diagonlas C. Medians D. Altitude	11	Tan 180° =	B. 1 C. Not defined
The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its: A. Sides B. Diagonlas C. Medians D. Altitude	12	Cot 45° =	B1 C. 0
The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its: B. Diagonlas C. Medians D. Altitude	13	Question Image	
15 Question Image	14	The sum of the squares of the sides of a rhombus is equal to the sum of the squares of its:	B. Diagonlas C. Medians
	15	Question Image
