

Biology Fsc Part 1 Chapter 5 Online Test

Sr	Questions	Answers Choice
1	Bacteriophage replicates only in cells.	A. Animal B. Plant C. Bacteria D. None of these
2	Organelle of symbiotic origin is.	A. Cell wall B. Cell memberane C. Mitochondria D. Vacuole
3	The enzymes involved in the viral replication are synthesized	A. On viral ribosomes B. In the interior surface of viral membrane C. By the host cell D. On the interior surface of viral coat
4	The process in which the phage is called prophage is termed as.	A. Induction B. Deduction C. Lysogany D. Presentation
5	Genus for corn plant is.	A. Allium B. Cassla C. Solanum D. Zea
6	Scientific name has advantages of	A. Same name applied to different organism B. Same organism have different name in different areas C. Has not scientific basis D. Has scientific basis and universally accepted
7	About 60% of adults are timmune to disease.	A. Mumps B. Nests C. Influenza D. Pollio
8	The size of parvovirus is.	A. 100 nm B. 20 nm C. 250 nm D. 350 nm
9	Phylogeny describes a species	A. morphological similarities with other species B. Evolutionary history C. Reproductive compatibilities with other species D. Geographical distribution
10	Hepatitis 'B' is also called.	A. Delta Hepatitis B. Infectious Hepatitis C. Infusion Hepatitis D. Serum Hepatitis
11	To accommodate euglena like organisms and bacteria, kingdom Protista was proposed by	A. Linnaeus B. E Chatton C. Robert Whittaker D. Ernst Haekel
12	Five kingdom system of classification proposed by Margulis and Schwartz is not based on	A. Genetics B. Cellular organization C. Nucleic acid D. Mode of nutrition
13	In the lytic cycle of a bacteriophage, the host DNA is	A. Replicated B. Turned off by a protein coat C. Digested into its nucleotides D. Turned on by the removal of a protein coat
14	lcosahedral virus have nearly.	A. 10 faces B. 20 faces

		C. 30 taces D. 40 faces
15	Which one of the following is false about AIDS	A. HIV B. Auto-immune deficiency syndrome C. T-lymohocytes D. HAV
16	Prions are made up of.	A. Lipids B. Nucleic Acid C. Proteins D. None of these
17	Solanum esculent is the scientific name.	A. Potato B. Tobacco C. Onion D. Tomato
18	The smallest known viruses contain RNA spherical cotised are there.	A. Polio Viruses B. Pox viruses C. Herpes viruses D. Influenzas viruses
19	A virion is	A. Virus B. Viral protein C. Viral lysozyme D. Viral gene
20	Pig could be the source of infection of hepatitis.	A. A B. B C. E D. C
