

GAT-B Arts, Humanities & Social Science Verbal

Sr	Questions	Answers Choice
1	Choose the Word Which has Opposite Meaning Flux:	A. Stillness B. Motion C. Swerve D. Wince E. Glide
2	Choose the Word Which has Opposite Meaning Brunette:	A. Brown B. Bland C. Blonde D. Kitchenette E. Thorny
3	The Supreme Court's reversal of its previous ruling on the issue of provincial rights its reputation for	A. sustaniedinconsistency B. compromisedconsistency C. maintainfallacy D. spoiledflexibility
4	Choose the Word Which has Opposite Meaning Wavering:	A. Straight B. Tight C. Strong D. Poor E. Oscillating
5	Complete Sentence Few plants can grow beneath the canopy of the sycamore tree, whose leaves produce a natural herbicide that leaches into the surrounding soil, other plants that might compete for water and nutrients.	A. Refreshing B. Nourishing C. Distinguishing D. Inhibiting
6	Choose the word/phrase related to given word/phrase LITMUS: ACID	A. Polygraph: Truth B. Alkali: Acid C. Test tube: Acid D. Suspect: Anticipate
7	Choose the Word Which has Opposite Meaning Shy:	A. Bold B. Impudent C. Courageous D. Outspoken E. Bashful
8	An editorial praised the generosity of an anonymous,who had donated over a million rupees and several priceless books to the college	A. donor B. benefactor C. promoter D. rich
9	DISPERSE : ASSEMBLE	A. Atmosphere : Clouds B. Anarchy : Order C. Book : Title D. Table : Legs
10	Choose the Word Which has Opposite Meaning Ambivalent:	A. Wavering B. Contradictory C. Mixed D. Decisive E. Modest
11	Unlike the Pakistan worker, who expects to work for several different companies during his carrer, until recently the Japanese worker regarded employment as a commitment.	A. a lifetime B. a major C. an obligatory D. an economic
12	Progress in a government, science, art, literature, philosophy and religion great civilisations from mere groups of communities.	A. Extol B. Describe C. Distinguish D. Relinquish
13	DETECTIVE : INFORMER	A. Author : Book B. Architect : Draftsman C. Reporter : Source D. Vacancy : Empty
14	Choose the Word Which has Opposite Meaning Ruddy:	A. Wan B. Healthy C. Beautiful

		D. Imaginative E. Powerful
15	Held up only by a steel cable, the chairlift at Muree was to carry only two people	A. narrow - permitted B. hard - instructed C. massive - designed D. single - intended
16	Choose the Word Which has Opposite Meaning Effete:	A. Courageous B. Bold C. Strong D. Large E. Weak
17	Nothing is so to a nation as an extreme of self-partiality, and the total want of of what others will naturally hope or fear.	A. Repugnant; Sense B. Delusionary, Methodly C. Fatal, Consideration D. Unethical, Discretion E. Detrimental, Concern
18	Choose the Word Which has Opposite Meaning Chaffing:	A. Capitalistic B. Happily C. Sneering D. Serious E. Light
19	Choose the Word Which has Opposite Meaning Cupidity:	A. Curiostiy B. Wine Worshipping C. Atrocity D. Clarity E. Generosity
20	Recent advances in science and technology have made it possible for geneticists to find out abnormalities in the unborn fetus and take remedial action to rectify some defects which would otherwise prove to be fatal to the child. Though genetic engineering is still at its infancy, scientists can now predict with greater accuracy a genetic disorder. It is not yet an exact science since they are not in a position to predict when exactly a genetic disorder will set in. While they have not yet been able to change the genetic order of the gene in germs, they are optimistic and are holding out that in the near future they might be successful in achieving this feat. They have, however, acquired the ability in manipulating tissue cells. However, genetic misinformation can sometimes be damaging for it may adversely affect people psychologically. Genetic information may lead to a tendency to brand some people as inferiors. Genetic information can therefore be abused and its application in deciding the sex of the fetus and its subsequent abortion is now hotly debated on ethical lines. But on this issue geneticists cannot be squarely blamed though this charge has often been leveled at them. It is mainly a societal problem. At present genetic engineering is a costly process of detecting disorders but scientists hope to reduce the costs when technology becomes more advanced. This is why much progress in this area has been possible in scientifically advanced and rich countries like the U.S.A., U.K. and Japan. It remains to be seen if in the future this science will lead to the development of a race of supermen or will be able to obliterate disease from this world. Q:Which of the following, according to the author, are the short-comings of genetics in becoming an exact science?	A. Technicians will not be able to determine the time when genetic disorder will set in B. Technicians have not been able to manipulate germ cells C. Both A and B D. Either A or B
