

## ICS Part 1 English Chapter 12 Online Test

| Sr | Questions                                                                                                                                                                                             | Answers Choice                                                                                                                                                                                          |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1  | Choose the best answer from the given option.<br>What can excessive reliance on digital communication lead to.                                                                                        | A. An increase in face to face interactions<br>B. A decline in face to face interactions<br>C. Stronger family bonds<br>D. Improved social skills                                                       |
| 2  | Choose the best answer from the given option.<br>What can overreliance on AI for social interaction reduce among users.                                                                               | A. Logical reasoning<br>B. Empathy and emotional intelligence<br>C. Technical skills<br>D. Problem solving abilities                                                                                    |
| 3  | Choose the option that is the best synonym in the context of the text.<br>to maximise the benefits of AI while minimising its risks, it is essential to promote <b>responsible use</b> .              | A. Careless application<br>B. Ethical deployment<br>C. Widespread adoption<br>D. Limited implementation                                                                                                 |
| 4  | Choose the best answer from the given option.<br>Which example is given for self checkout system replacing human jobs.                                                                                | A. Teachers<br>B. Cashiers<br>C. Doctors<br>D. Engineers                                                                                                                                                |
| 5  | Choose the option that is the best synonym in the context of the text.<br>In education, AI-Based learning platforms provide <b>personalised</b> lessons.                                              | A. Generic<br>B. Group based<br>C. Customized<br>D. Public                                                                                                                                              |
| 6  | Choose the option that is the best synonym in the context of the text.<br>AI has become a central technology in various <b>sectors</b> . Including healthcare, education, finance, and entertainment. | A. Industries<br>B. Small areas<br>C. Private homes<br>D. Ancient fields                                                                                                                                |
| 7  | Choose the option that is the best synonym in the context of the text.<br>Society can harness the power of AI for good while avoiding its <b>potential harms</b> .                                    | A. definite benefits<br>B. Possible dangers<br>C. Intended results<br>D. Unforeseen advantages.                                                                                                         |
| 8  | Choose the option that is the best synonym in the context of the text.<br>Deepfake videos can damage an individual's <b>reputation</b> .                                                              | A. Status<br>B. Wealth<br>C. Integrity<br>D. Standing                                                                                                                                                   |
| 9  | Choose the best answer from the given option.<br>In healthcare, what do AI-powered systems assist doctors in                                                                                          | A. Performing all surgeries independently<br>B. Diagnosing diseases and predicting patient outcomes<br>C. Replacing all human nurses<br>D. Managing hospital finances exclusively                       |
| 10 | Choose the best answer from the given option.<br>What can facial recognition systems used in public spaces identify.                                                                                  | A. Only known criminals<br>B. Individuals by analyzing their facial features<br>C. People's thoughts<br>D. Personal financial information                                                               |
| 11 | Choose the option that is the best synonym in the context of the text.<br>Social media platforms use AI <b>algorithms</b> to personalise content.                                                     | A. Random selections<br>B. Human editors<br>C. Computational methods                                                                                                                                    |
| 12 | Choose the best answer from the given option.<br>What does privacy protection in AI guidelines mean.                                                                                                  | A. User data can be shared freely<br>B. User data should be securely stored and processed only with user consent<br>C. AI developers are not responsible for user data<br>D. user data is not important |
| 13 | Choose the best answer from the given option.<br>What is Artificial Intelligence described as in the passage.                                                                                         | A. A temporary trend<br>B. A transformative force<br>C. A minor technological advancement<br>D. A branch of biology                                                                                     |

|    |                                                                                                                                                                                        |                                                                                                                                                                                                                                                 |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 14 | Choose the best answer from the given option.<br>What does transparency in AI guidelines mean.                                                                                         | A. AI systems should keep their workings secret<br>B. Users should understand how AI systems work and make decisions<br>C. AI system should only be used in secret<br>D. AI system should be invisible                                          |
| 15 | Choose the option that is the best synonym in the context of the text.<br>AI ensures faster and more accurate <u>transactions</u> .                                                    | A. Disagreements<br>B. Exchanges<br>C. Reports<br>D. Cancellations                                                                                                                                                                              |
| 16 | Choose the option that is the best synonym in the context of the text.<br>Individuals may be <u>monitored</u> without their consent.                                                   | A. Ignored<br>B. Supervised<br>C. Allowed<br>D. Protected                                                                                                                                                                                       |
| 17 | Choose the option that is the best synonym in the context of the text.<br>Individuals must be prepared for a <u>technology-driven future</u> .                                         | A. Past oriented era<br>B. Human powered society<br>C. Tech based tomorrow<br>D. Manual labour world                                                                                                                                            |
| 18 | Choose the best answer from the given option.<br>In healthcare, AI-powered diagnostic tools like image recognition software can identify diseases such as cancer at what stage.        | A. Advanced stage<br>B. Late stage<br>C. Early stage<br>D. Terminal stage                                                                                                                                                                       |
| 19 | Choose the option that is the best synonym in the context of the text.<br>Overreliance on AI for social interactions can reduce empathy and <u>emotional intelligence</u> among users. | A. Intellectual capacity<br>B. Logical reasoning<br>C. Understanding of feelings<br>D. Practical skills                                                                                                                                         |
| 20 | Choose the best answer from the given option.<br>What should ethical guidelines for AI focus on.                                                                                       | A. Maximizing profit<br>B. Choose the best answer from the given option.<br>Transparency, Fairness, Privacy protection, Accountability, Continuous Monitoring.<br>C. speed and efficiency above all else<br>D. Limiting access to AI technology |
