1	One's ability to adjust in an environment successfully leads to happiness. War at a universal level destroys the weaker people, who are the most unable to adjust to their environment. Thus, war at the universal level puts weakling out of their misery and allows more space for their predators to enjoy life in a better manner. As those actions have to be performed, which maximize the level of happiness of the greatest number, war at a universal level should take place. Q: What response would the author of the above discussion come up with, in the case of the objection that the weaklings far exceed strong people? I- He would respond with statement that the person making the objection is a weakling. II- He would respond by saying that weakings will be miserable no matter what happens. III- He would respond with statement that the strong would be frustrated if the weaklings are destroyed.	A. I only B. II only C. III only D. I and II only E. II and III only
2	Multan Institute of Higher Studies plans to show five educational films A, B, C, D and E to a group of students.
