PPSC Economics Topic 12 Statistics In Economics

Sr	Questions	Answers Choice
1	Which of the following are function of inferential statistic.	A. Estimation B. Testing of hypothesis C. both a and b D. None of these
2	Which of the following is a reason for misuse of statistics.	A. data can be manipulated B. Figures are convincing C. Figures can be used to mislead readers D. All of the above
3	Statistics should be capable of.	A. Empiricism B. systematic inquiry C. Comparison D. Evolution
4	Which of the following statements is true about platykurtic curve as compared to normal curve.	A. Flatter B. Broader central position C. Lower tails D. All of the above
5	To basic objective of sampling study is.	A. To draw inference B. To check units of population C. To collect numerical data D. To make census
6	As a plural noun, who defined statistics very adequately and realistically	A. Webster B. Bowley C. A.M. Tuttle D. Prof. H. secrist
7	Data is collected with reasonable standard of.	A. Numerical method B. Feasibility C. Accuracy D. All of the above
8	Which stage guides from the planning stage to the stag of drawing of final conclusions.	A. Numerical facts B. Statistical methods C. Data D. None of the above
9	To study the variation in the production of rice over a number of years, select from the following, the appropriate sample for drawing results that reflects only small variations.	A. Collect data from some states B. Collect data from all the states C. Collect data from one or two states D. Collect data from more than half the number of states.
10	Which among the following is not an essential of sampling.	A. Representativeness B. Complete C. Same D. Dependent
11	What are the two broad functions of statistical methods in social research.	A. Description and summarizing B. Description and indication C. Description and induction D. Applied Mathematics and induction
12	What the process of summarizing raw data and displaying them on compact statistical table for further analysis.	A. Statistical analysis B. Data processing C. Tabulation D. Table construction
13	Non proportional random sampling is a sub type of.	A. Unrestricted random sampling B. Simple Random sampling C. Stratified Random sampling D. Cluster Random sampling
14	The mathematical theory of probability has helped to form the.	A. Statistical theory B. Law of inertia of large numbers C. Law of statistical Relativity D. Law of statistical Regularity
15	The most frequently occurring score in a distribution	A. Mean B. mode C. Median

		D. Quartile
16	It is a process of checking to detect and correct errors and omissions.	A. Coding B. Editing C. Analysis D. Classifications
17	Snowball sampling is used for data collection through.	A. Connecting relations B. Small population C. Representatives D. None of the above
18	Which of the following are functions of inferential statistics.	A. Estimation B. Testing of hypothesis C. Both a and b D. None of these
19	Which device is good to measure variation in open end distribution.	A. Quartile deviation B. Range C. Mean deviation D. Variance
20	Gender is categorized as	A. Nominal data B. Ordinal data C. Interval data D. Ratio data
