

PPSC Economics Topic 12 Statistics In Economics

Sr	Questions	Answers Choice
1	To study the variation in the production of rice over a number of years, select from the following, the appropriate sample for drawing results that reflects only small variations.	A. Collect data from some states B. Collect data from all the states C. Collect data from one or two states D. Collect data from more than half the number of states.
2	Data is collected with reasonable standard of.	A. Numerical method B. Feasibility C. Accuracy D. All of the above
3	It provides systematic knowledge on problem and issues analyzed.	A. Research report B. Research proposal C. Research abstract D. Research design
4	The very word statistics refers to.	A. State craft B. Science of state C. Political state D. Political craft
5	Which among the following is a material for statics.	A. Honesty B. Poverty C. Wisdom D. Numerical data
6	If the same amount is added to or subtracted from all the values, standard deviation shall be.	A. Changed B. Unchanged C. Both D. None
7	Which provide a shorthand summary of data.	A. Frequency table B. Simple table C. Cross table D. Two way table
8	What is the reason for the necessity of statistics in the field of social sciences.	A. Simplification and quantitative approach B. Knowledge acquisition and description C. Easiness and analytical D. all of the above
9	Which device is good to measure variation in open end distribution.	A. Quartile deviation B. Range C. Mean deviation D. Variance
10	What the process of summarizing raw data and displaying them on compact statistical table for further analysis.	A. Statistical analysis B. Data processing C. Tabulation D. Table construction
11	Skewness refers to.	A. Symmetry B. Asymmetry C. Flatness D. Variance
12	What characteristic does statistics emphasizes, as a Method or as a singular noun.	A. Descriptive B. Analytical C. Inferential D. Comparative
13	To basic objective of sampling study is.	A. To draw inference B. To check units of population C. To collect numerical data D. To make census
14	Statistics is one of those science which are only indicative of a trend, therefore	A. It is probabilistic than deterministic B. It is deterministic than probabilistic C. a definite data collection method is unnecessary D. Data sources should be clear

15	Which stage guides from the planning stage to the stag of drawing of final conclusions.	A. Numerical facts B. Statistical methods C. Data D. None of the above
16	Academic community is otherwise called.	A. General public B. Target audience C. Participant audience D. Scientific community
17	What is embodies sampling.	A. Haphazard selection B. Numbers C. Definite rules D. Accuracy
18	A statistic in inferential statistics is related to which of the following.	A. Sample B. Population C. Botha a and b D. None of these
19	Chose the advantage of snowball sampling from the following.	A. population of not seen B. Total size of population is not known C. researcher's acquaintance influence the research D. Contradicts with conventional nations.
20	The extent of variability is measured by	A. Central tendency B. Measures of dispersion C. Arithmetic mean D. Co relation
