

## PPSC Economics Topic 12 Statistics In Economics

Sr	Questions	Answers Choice
1	What is the process of summarizing raw data and displaying them on compact statistical tables for further analysis.	A. Statistical analysis B. Data processing C. Tabulation D. Table construction
2	"More reliable results can be obtained through sampling method" because.	A. Statistical error is low B. Saves time C. Cost is low D. None of the above
3	What the process of summarizing raw data and displaying them on compact statistical table for further analysis.	A. Statistical analysis B. Data processing C. Tabulation D. Table construction
4	It provides systematic knowledge on problem and issues analyzed.	A. Research report B. Research proposal C. Research abstract D. Research design
5	Which among the following is not a merit of the census method.	A. Results are representative B. Information on rare events C. Result are reliable D. In appropriate method for enumeration
6	Which among the following is a material for statics.	A. Honesty B. Poverty C. Wisdom D. Numerical data
7	Sum of squares of the deviations about mean is.	A. Maximum B. Minimum C. zero D. one
8	Who stated statistics as 'aggregate of knowledge brought together for practical ends.	A. W.I. King B. A.L. Bowley C. Prof. H sechrist D. None of the above
9	To study the variation in the production of rice over a number of years, select from the following, the appropriate sample for drawing results that reflects only small variations.	A. Collect data from some states B. Collect data from all the states C. Collect data from one or two states D. Collect data from more than half the number of states.
10	Coefficient of standard deviation is.	A. SD/Median B. SD/Mean C. SD /Mode D. AM/SD
11	Measure of skewness gives.	A. Direction of skewness B. Extent of skewness C. Both a and b D. None of these
12	What is the characteristic of the sample which is selected randomly.	A. It is not average of the whole B. It would be representative C. It would not be equal to the population D. All of the above
13	It is a process of checking to detect and correct errors and omissions.	A. Coding B. Editing C. Analysis D. Classifications
14	What does Social Researchers seek out of vast and confusing variety of individual characters.	A. Generalizations B. Decisions C. Single events D. group characteristics

15	What are the two broad functions of statistical methods in social research.	A. Description and summarizing B. Description and indication <b>C. Description and induction</b> D. Applied Mathematics and induction
16	Which stage guides from the planning stage to the stage of drawing of final conclusions.	A. Numerical facts <b>B. Statistical methods</b> C. Data D. None of the above
17	Parameter in inferential statistics refers to	A. Sample value B. Data <b>C. Population value</b> D. Variable name
18	Which of the following is a reason for misuse of statistics.	A. data can be manipulated B. Figures are convincing C. Figures can be used to mislead readers <b>D. All of the above</b>
19	What characteristic does statistics emphasizes, as a Method or as a singular noun.	<b>A. Descriptive</b> B. Analytical C. Inferential D. Comparative
20	Statistics should be capable of.	A. Empiricism B. systematic inquiry <b>C. Comparison</b> D. Evolution
