

PPSC Economics Topic 12 Statistics In Economics

Sr	Questions	Answers Choice
1	What characteristic does statistics emphasizes, as a Method or as a singular noun.	A. Descriptive B. Analytical C. Inferential D. Comparative
2	According to Lincoln, I. Chao what is the primary objective of modern statics.	A. Presentation of data B. Collection of quantitative data C. Assisting in making decisions D. Summarization of data
3	'Equal chance of being included in the sample", about what does Dr. Yates and Harper defined like this.	A. Stratified sampling B. Probability sampling C. Proportional sampling D. None of these
4	What does Social Researchers seek out of vast and confusing variety of individual characters.	A. Generalizations B. Decisions C. Single events D. group characteristics
5	Which stage guides from the planning stage to the stag of drawing of final conclusions.	A. Numerical facts B. Statistical methods C. Data D. None of the above
6	The prominent meaning of statistic	A. Data , its analysis and interpretation B. Observation of samples C. Method for analyzing numbers D. conducting census
7	Skewness refers to.	A. Symmetry B. Asymmetry C. Flatness D. Variance
8	Statistics are affected to a market extend by	A. Aggregate of facts B. Multiplicity of causes C. Numerically stated D. Complex manifestations
9	What does statistics of distribution indicates.	A. Consumer preference B. Strength of the desire of people C. Wealth of nation D. Economics conditions of people
10	Which of the following are functions of inferential statistics.	A. Estimation B. Testing of hypothesis C. Both a and b D. None of these
11	Measure of skewness gives.	A. Direction of skewness B. Extent of skewness C. Both a and b D. None of these
12	It is a process of checking to detect and correct errors and omissions.	A. Coding B. Editing C. Analysis D. Classifications
13	Statistics is one of those science which are only indicative of a trend, therefore	A. It is probabilistic than deterministic B. It is deterministic than probabilistic C. a definite data collection method is unnecessary D. Data sources should be clear
14	Which characteristic of the following is not belonging to statistics as a method.	A. A tool of analysis B. Helps processing the raw C. Descriptive nature D. Processing done by systematic analysis and interpretation
15		A. It is symmetrical B. Mean, median and mode coincide

15	Which of the following is true about skewed distribution.	C. Similar to normal distribution. D. The more mean moves away from mode larger skewness
16	Which among the following is not a merit of the census method.	A. Results are representative B. Information on rare events C. Result are reliable D. In appropriate method for enumeration
17	Estimation is the process of.	A. Formulating some hypothesis about the population B. Inferring statistic from parameter C. Testing some hypothesis about eh population D. Inferring parameter from statistic
18	What are the two broad functions of statistical methods in social research.	A. Description and summarizing B. Description and indication C. Description and induction D. Applied Mathematics and induction
19	The very word statistics refers to.	A. State craft B. Science of state C. Political state D. Political craft
20	Who stated statistics as 'aggregate of knowledge brought together for practical ends.	A. W.I. King B. A.L Bowley C. Prof. H seclist D. None of the above
